To Whom It May Concern:

The Tupper Lake Tinman Triathlon has wrapped up it's 32nd year with another successful race. As we say in the business, it couldn't be done without a lot of help from everyone in the community pitching in.

At this time we would like to express our thanks to the Village of Tupper Lake for the exceptional cooperation we received from Mike Sparks and his crew again this year. The setup and the take down of the transition area went very smoothly thanks to their efforts. Other parts of the operation that have to be done in a timely manner during the week before the event were executed with the usual precision we have come to expect from Mike and the entire village crew. They do a great job.

The Tinman started in 1983 and we hope to continue it for many years to come. We appreciate your support.

Thanks again!

The Tupper Lake Tinman Triathlon

Mr. Burley added that we should see a relief on the assessment between the Maddox Lane facility and the proposed facility on Pitchfork Pond.

Refine Scope & Force Account

Minutes

Date: Wednesday, August 27, 2014
Time: 6:30 PM
Location: Board Room
Meeting: Public Hearing

6:30-7:10 PM

At the Public Hearing of the Board of Trustees held this date, the following were present: Mayor Paul A. Maroun, Trustees Rick Donah, Leon LeBlanc, Thomas Snyder, David Maroun and Village Clerk/Treasurer Mary A. Casagrain.

Also present were Electric Superintendent John T. Bouck, Town of Tupper Lake Supervisor Patricia S. Littlefield and New Reporters Matthew Turner and Daniel McClelland.

Call the Public Hearing To Order

Mayor Maroun called the Public Hearing to order for the purpose of hearing comments from the public concerning proposed revisions to the Village of Tupper Lake's Electric Rates and read aloud the legal notice published in the *Tupper Lake Free Press* on August 20th and August 27th of 2014. The notice was also posted in the Village Hall Lobby on August 13, 2014.

John T. Bouck

Electric Superintendent John T. Bouck stated that back in November of 2013 the board started talks with the New York Power Authority about our concerns of the lack of cash reserve and cash flow to complete necessary capital improvements to the utility and the much needed cash to operate the day to day operations. After the initial review it was suggested we do a more comprehensive financial review and analysis which required we submit historical data for each year since our last rate increase approved in December of 2009.

The New York Power Authority completed that review in March of 2014 and further required a full scale comprehensive review of our rates and financials. Thus requiring we submit a more comprehensive capital improvement plan for the next two (2) years as well as a planned future debt for our requested betterments as part of our NYS Route 3 & 30 reconstruction project and needed upgrades to Municipal Electric Utility.

Superintendent Bouck presented our proposed rates in detail for each rate class outlining that the total revenue generated as a result of the proposed rate increase would generate 5.6% in revenues to the utility. For the residential customer there would be a 22.6% rate increase for the first 1,500 kWh and about .5% increase for the other two tiers. The other rate classes will see an increase ranging between 8% and 12%.

Daniel McClelland

News Reporter Mr. Daniel McClelland asked if we need this rate increase.

John T. Bouck

Electric Superintendent John T. Bouck advised that it was

Further he outlined a few of reasons for the proposed rate increase including the loss of sales of over nine million kilowatt hours per year in the industrial and residential classes, increased initiatives to help conserve power through the IEEP program including the appliance rebate program, commercial lighting program, attic insulation program, pv solar program, compact bulb program etc. not to mention several increases for electricity purchased.

Unfortunately without the sales revenue many improvements haven't been completed, noting that only three of the ten things planned for the 2010 rate review have been completed.

Patricia S. Littlefield — Town of Tupper Lake Supervisor Patricia S. Littlefield asked about the electric department's current debt.

Mary A. Casagrain — Village Clerk/Treasurer Mary A. Casagrain advised that there were two 1994 public improvement bonds outstanding and a USDA bond.

John T. Bouck — Electric Superintendent John T. Bouck added that due to the loss of sales his biggest challenge his department faces is the lack of cash flow in the summer months when electric bills are low for our customers.

Patricia S. Littlefield — Town of Tupper Lake Supervisor Patricia S. Littlefield asked if the the Village should consider lifting the electric heat moratorium to increase sales?

John T. Bouck — Electric Superintendent John T. Bouck advised that the current moratorium end in November and the board may want to consider lifting it at that time.

Paul A. Maroun — Mayor Paul A. Maroun advised that he had last years electric usage calculated using the new proposed rate structure and the net increase assuming the same usage would be approximately $115.41 more for the year. He further added that this rate increase would allow us the cash flow we need to operate year round.

Thomas Snyder — Trustee Thomas Snyder stated that in the past rate reviews we tried hard to not increase rates by keeping our base rates so low that we can barely make it through the summer. He stated that the new rate spreads the increase evenly through all rate classes.

John T. Bouck — Electric Superintendent John T. Bouck noted that the village also asked NYPA to permit a reserve fund to give the village the ability to apply those reserves to future PPA to account for anomalies during the heating season but were denied that request advising that the PPA is intended just for those purposes.

He further explained that if the board so chooses to accept the rates as proposed tonight, the New York Power Authority will need to advertise the proposed rate increase in the NYS Register and after 45 days it may then be reviewed by the NYPA Trustees at their scheduled December meeting. He speculated that the new proposed rates if approved would take effect February of 2015.

He encouraged residents to continue to send their comments in and we would forward them onto the New York Power Authority.

James Moody

Resident and Part-time Employee James Moody advised that the local press made several mistakes in their recap of the proposed rate increase and he asked if they were prepared to make a correction of the correct rates in next week's newspaper. He added that he feared the residential customers might be surprised next year when they start getting billed the new rates and they don't agree especially since he deals with a lot of the customer billing inquiries.

Daniel McClelland

Local News Reporter Daniel McClelland advised that he thought the headline was correct since the proposed revenue for each service classification was a 5.6% increase in revenue. He agreed to further clarify the percentages in his next week's edition for the public.

John T. Bouck

Electric Superintendent John T. Bouck explained that if the board so chooses to accept the rates as proposed tonight, the New York Power Authority will need to advertise the proposed rate increase in the NYS Register and after 45 days it may then be reviewed by the NYPA Trustees at their scheduled December meeting. He speculated that the new proposed rates if approved would take effect February of 2015

John T. Bouck	Electric Superintendent John T. Bouck explained he would anticipate if there were those funds they would be reinvested in our system in improvements.

Comments: I am currently working with our Judge on learning the correct process for levying fines for Code / Zoning violations.

I am going to streamline our appearance ticket process & ask that the court impose a mandatory minimum fine for violators & maybe this will stop the repeat offenders & free up my time for other duties. As it stands now & always has been we only wanted compliance no matter how much time I spent on violations, inspections, followup inspections & court appearances.

Sincerely: Peter Edwards

Subject: Tupper Lake Village Cost Betterment (Final Estimate)

Paul,

This email is an update to my July 9 email regarding the village betterment cost share. The design of the project will be complete soon and it will be sent to Albany for bid preparation on September 25. We have performed a final cost estimate for the village share of the water, sewer, and ornamental lighting. The estimate is attached for your review. There are no significant changes, so it is very similar to the previous estimate provided to the village. It is rounded to an even $650,000 to simplify the resolution.

We are asking that you bring the attached resolution authorizing payment up at your next village board meeting on Monday Sept 15th. If you have any questions regarding this please give me a call.

Thank you
Steve

Re: Firm Hydro Energy for **October 1 – 31, 2014**

Dear Mr. Bouck:

We are pleased to advise you that we anticipate there will be **no reduction in firm hydro energy sales to our hydropower customers for the period of October 1 through 31, 2014.** The forecasted October 2014 generation is projected to be sufficient to meet our firm hydropower customers' needs. However, if that generation is not sufficient, Substitute Energy will be purchased on your behalf for those customers with signed Substitute Energy agreements.

Since hydro shortfalls may still be anticipated in future months, we remain prepared to provide Substitute Energy to assure continuous flow of the lowest cost power to you. For those customers who have executed a Substitute Energy agreement, the Power Authority will automatically purchase the Substitute Energy on your behalf in months that a shortage occurs, pursuant to those agreements, unless otherwise notified. The monthly price for Substitute Energy is an average of all Substitute Energy provided to firm hydropower customers each month.

Current estimates are no shortage for November 2014 through April 2015. We will continue to analyze more current data monthly and provide this type of rolling 6-month forecast each month.

If you have any questions, please contact me at (914) 287-3131, keith.hayes@nypa.gov or your account executives Vanessa Perez at (914) 390-8147, vanessa.perez@nypa.gov or Jerry McLoughlin (914)
