Mayor Paul Maroun
Village of Tupper Lake
53 Park Street
Tupper Lake, NY 12986

Dear Mayor: Paul

Tom and I took a walk this past Sunday on the new walk way. We want to compliment you on this great asset to Tupper Lake. It is very nice, quiet and peaceful and easy walking. We met many people using it, some on bikes, some walking and some pushing baby strollers, it was so nice to see that it is being enjoyed.

However, we were sad to see many cigarette packages and butts, trash and worst of all dog feces. It also looked like ATVs had been on the trail and left marks on the new surface.

We would like to make a few suggestions, perhaps a few trash bins, doggie bag dispensers and benches could be placed on the walk way. It may also be helpful to place more large stones at the entrances to keep unwanted vehicles off. It would be a shame to see this beautiful trail ruined.

Once again, it is a great addition to our Village, we plan on using it often.

Sincerely,

Tom & Sissy

Tom and Cheryl Arsenault

Mayor Paul A. Maroun
Village of Tupper Lake
53 Park Street, PO Box 1290
Tupper Lake, NY 12986

Dear Paul:

Adirondack town's and village's funding of the Adirondack Park Local Government Review Board has been instrumental in helping Adirondack communities by providing strong, unified, effective representation on important Adirondack Park policy issues like state land tax payments, the right to farm, protection of property rights of pre-existing landowners, classification of state lands, and Adirondack Park Agency reform. The Review Board helps provide factual and legal research to legislators and policy makers and disseminates information through almost daily emails. Here are a few examples:

We worked during the past year with a coalition of towns, counties and environmental groups on programs designed to effectively prevent the spread of dozens of aquatic invasive species that surround the Adirondacks into Adirondack waters. Aquatic invasive species threaten water quality and the Adirondack tourism economy, which is so dependent upon clean, healthy water. Earlier this year, we helped draft a Memorandum of Understanding containing a strategic plan for an Adirondack wide invasive species prevention program. Three state agencies and more than 60 counties, towns, villages, lake associations and environmental groups signed the Memorandum of Understanding. The Governor included $1 million for the prevention program in his 2015/2016 budget and the state legislature approved it. We also helped with the formation of the Adirondack Lakes Alliance, which now represents many Adirondack lake associations.

We worked with the SAVE Lake George Partnership to fund and implement a aquatic invasive species educational program with more than 800 radio spots in the Albany, Utica, Glens Falls, Vermont, Plattsburgh, Lake Champlain and St. Lawrence regions. We also helped design and order aquatic invasive species boat tags and seals to identify decontaminated boats and boats returning to the same water body for boat wash attendants and stewards to reduce their inspection and decontamination workloads.

We drafted a White Paper with recommended amendments to the Adirondack Park State land Master Plan.

We worked with the Northern Forest Center, the governor's office and the New York State Energy Research and Development Agency to support conversion of municipal and school buildings to wood pellet and wood chip biomass heating systems. These systems provide the dual benefit of substantially lowering fuel costs and keeping money spent on fuel local, rather than sending it to the Middle East. Conversion of Adirondack buildings to biomass heating has the potential to create many new jobs in the Adirondacks.

We lobbied the New York State Energy Research and Development Authority for funding for municipal steam biomass heating systems. This Spring NYSERDA awarded the Town of Chester with a $300,000 grant for a steam pellet boiler heating system demonstration project. We also proposed an amendment to the Local Finance Law to make municipal biomass heating projects more financially feasible. The amendment passed last session and is awaiting the Governor's signature.

We researched issues relating to the registration and use of UTVs and ATVs and their use in the Forest Preserve and participated in several meetings with Senators and Assembly Members on proposed legislation. We also supported the Outback Riders Club with their efforts to continue using ATV trails in Clinton and Franklin counties. We passed a resolution in support of their position that there is a prescriptive easement over a trail, which now includes a section over Forest Preserve land.

Working closely with our state legislators, the Review Board is the critical information and advocacy resource for Adirondack counties – collecting and disseminating news media, state agency and advocacy group information immediately to local officials while providing state leaders and the news media with timely, accurate bulletins on the needs of Adirondack communities. We're in regular communication with the APA, DEC, the Cuomo Administration, legislative leaders and statewide news media organizations.

Governor Cuomo requested and received our comments and included them in several of his press releases on Adirondack issues. His staff also requested our input on candidates to fill a vacancy on the APA board.

While there are literally dozens of issues the Review Board is working on, let me highlight three of the most important:

1. Support and advocacy for an update of the Adirondack Park State Land Master Plan. The original plan was adopted in 1972. It was required to be reviewed every five years and it has not been. In the meantime tourism and outdoor recreation have, by necessity become more important components of the Adirondack economy. The Review Board advocates for a major review and update of the plan to balance competing uses and enhance those uses important to the Adirondack economy.

2. Snowmobile trails. Summer — and winter — tourism is the economic engine in most Adirondack communities. Expanded access to snowmobile trails is critical to

the success of winter tourism. The Review Board continues to work with state officials to ensure that the existing network of snowmobile trails is not reduced and is expanded, particularly in the newly acquired former Finch lands.

3. Aquatic Invasive Species Prevention Program. We plan to actively participate with DEC and the Governor's office on plans for a 2016 Aquatic Invasive Species Prevention program.

We are **in the best position** we have ever been in to capitalize on these recent gains, and are **at a critical time** – both in terms of policy making and in terms of budget.

We need your help. After all this work, and all of our effort, the state cut the Review Board's budget – which wasn't much to begin with – by 53 percent in the last four years. We know that it is not a good time to be asking for financial help from local governments. But your assistance is crucial to our continued success this year and next.

The Review Board strives to keep expenses low while operating effectively on behalf of local governments. Because of these continued efforts, we are requesting that, if you have not already funded the Review Board in 2015, that you consider 2015 funding in the amount of $300 so we can continue our critical work on your behalf, and budget the same amount in your 2016 budget. All of our futures may depend on it.

If you require a contract, please sign and return the enclosed contract to me. I will sign it and return a signed copy to you. If you have any questions or concerns, or there is something the Local Government Review Board can do for you, please don't hesitate to call me at 518-796-2415

Sincerely,

Fred Monroe
Executive Director

Tupper Lake Marketing & Destination Planning Contract Update:

Prepared: September 10, 2015

Prepared For: The Town of Tupper Lake,
Village of Tupper Lake &
Town of Piercefield

As we move from summer into fall, we would like to pause for a moment to update you on our recent marketing efforts for Tupper Lake & Piercefield.

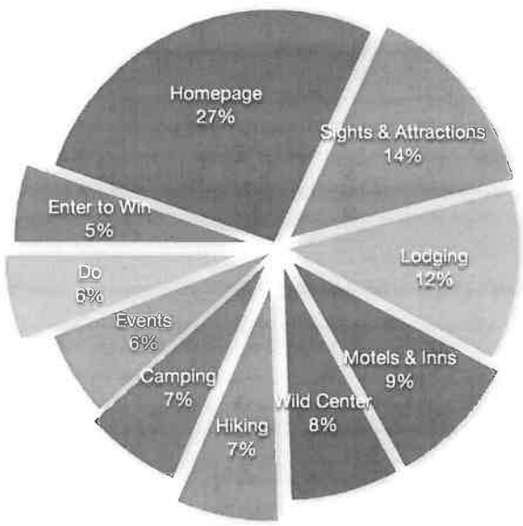
Tupper Lake Website

As we have discussed in previous reports, much of our focus has been on following travel industry standards for content development (ZMOT) and Search Engine Optimization (SEO). In addition to new photos, web pages and database content, approximately 20 new blogs were also added to the site from June 1 - August 31, 2015.

Web Statistics (June 1, 2015 - August 31, 2015)

Site Traffic

- 108,615 Sessions
- 79,239 New Visitors
- 29,376 Returning Users
- 334,942 Pageviews



The Top 10 Page Views

1. Homepage: 43,864
2. Sights & Attractions: 22,868
3. Lodging: 19,572
4. Motels & Inns: 15,194
5. Activities - The Wild Center: 12,431
6. Hiking: 11,609
7. Camping: 10,918
8. Events: 9,692
9. Do: 9,637
10. Enter to Win/Lead Generation: 8,793

As previously discussed, since this is a newly designed site and there are little web statistics from the previous website for Tupper Lake, during the first year of the new website we are developing a benchmark in which we can measure future marketing efforts.

Acquisition

Another thing that we continue to track is how people are getting to the Tupper Lake website. From June 1 to August 31, 2015, the e-mail newsletters have generated 7,097 new visitors on tupperlake.com. 6,960 came from social media, while referral traffic was 15,167 and direct input was 12,359. However, by far the largest amount of traffic came from organic search (someone going to a search engine, such as Google, and searching travel related terms). This shows that the emphasis put on content generation is beginning to pay off.

Adirondacks USA

Virtual Tours - Under our umbrella Adirondacks USA, Tupper Lake continues to be represented with a variety of virtual tours which we continue to expand on, on a regular basis.

E-mails - Tupper Lake continues to be included in weekly e-blast sent out to our e-mail database of over 120,000 subscribers. As part of this effort, we maintain a weekly blog topic schedule for the three counties we represent. Emails are currently running at a 29% open rate with a 14% click through rate.

Video - Finally, during the summer we were able to start testing the waters on video content. During this time, we featured some fishing videos in Tupper Lake with TV Personality, Don Meissner.

In addition, we created a featured video blog for Tupper Lake titled "Unplug & Enjoy Tupper Lake" This video was released on August 12 and has since been viewed 10,052 on Facebook as well as an additional 946 times on YouTube.

With successful showing to the potential of video content, we are pleased to say that we will be bringing a videographer on staff to help create more video content. With YouTube currently being the number 2 search engine after Google, adding video content to our media mix should continue to show positive returns for Tupper Lake and the Adirondacks.

Paid Advertising

Over the summer we have continued with some paid advertising campaigns. They focused on family hiking, fishing and events. The follow were the results of these campaigns.

Hiking (Family) - Reach: 159,936
Website Clicks: 7,530

Fishing - Reach: 107,195
Website Clicks: 5,757

Events - Reach: 93,772
Website Clicks: 6,293

Fall/Winter Ads - As we move into fall we are running a combo ad the is designed to stimulate the idea of fall travel. It references golf, fishing and nature. Next on the docket will be ice fishing, snowmobiling and skiing (alpine and cross country).

Communications/PR

As previously discussed, this spring we cooperatively worked with The Wild Center to retained the services of the Nancy J. Friedman Public Relations Firm out of New York City. This cooperative project was designed to promote Tupper Lake as a destination, and to take advantage of the newsworthy opening of Wild Walk. The resulting coverage, with the support of I Love New York's inclusion of the Wild Walk in a television advertising campaign, continues, and includes national media with stories in Travel + Leisure, The New York Times, Los Angeles Times, Washington Post and ABC News to name a few. The Wild Center has reported tremendous increases in visitation as a result, too, with more than 50,000 visitors to the Center in July alone.

In addition, the ROOST Communications Team in August hosted a familiarization tour they called "Eat Play Love NY." They invited eight bloggers to visit the area; half came from throughout the U.S., and the other half were from Canada and Europe. We hosted them in partnership with several other tourism regions as part of a Market NY Grant, as they went on a whirlwind tour of Northern New York. In Tupper Lake specifically, they visited The Wild Center, ate at Well Dressed Food, and hiked Mount Arab. For a listing of some of the coverage that resulted from the trip, visit www.eplny.com.

Tupper Lake Office Update

During the summer we are pleased to say that for the first time in years the Tupper Lake Information Center has operated 7-days a week. This has been thanks to our dedicated volunteers, our summer intern, Katie Stuart, and a paid Tupper Lake Visitor Services Representative - who handles weekends.

Destination Planning

The North Country Regional Economic Development Council's (NCREDC) Tourism Destination Area Nomination Workbook for Tupper Lake was completed this spring. After a planned summer hiatus, we are getting ready to resume meetings to start working on the next phase: the Destination Master Plan (DMP). If you are part of the DMP Team, please keep an eye on your e-mail as dates will be coming your way soon. If you were not involved in the past, and would like to join in, please feel free to contact us as we would love to have you input.

Finance Solutions for Commercial Solar

Wood Heating Systems Become More Affordable

In August, the New York State Energy Research and Development Authority (NYSERDA) increased levels of support through Renewable Heat NY for high-efficiency, low-emission wood heating systems to improve the return-on-investment for homeowners and businesses.

NYSERDA is increasing the levels of State support per project as part of its ongoing strategy to evaluate and modify programs in response to market changes. The price of oil is down 25 percent since Renewable Heat NY was launched in July 2014. The new support levels are expected to further stimulate adoption of cleaner, more efficient wood heating systems.

The new levels of support will be available for applications received by September 30, 2016 and will then be reassessed in light of market conditions.

Renewable Heat NY is an initiative of Governor Andrew M. Cuomo's Reforming the Energy Vision (REV), which is a strategy to build a clean, resilient, and affordable energy system for all New Yorkers. The support being offered through Renewable Heat NY is a bridge to developing a sustainable industry for renewable thermal technologies under the Clean Energy Fund, a strategic pillar of REV that will reshape the State's energy efficiency, clean energy and energy innovation programs.

Customers interested in the Shared Renewables initiative can participate in a number of ways. For instance, the residents of an apartment complex may want to join together for a shared solar project. They would need to find a sponsor who will be responsible for organizing the project on behalf of the residents. The sponsor could be a developer or even the residents of the building banding together to form a legal entity such as a limited liability corporation, or LLC.

Dear BVP applicant,

The Bureau of Justice Assistance (BJA) is pleased to inform you that your agency will receive an award under the Fiscal Year (FY) 2015 Bulletproof Vest Partnership (BVP) solicitation. These funds have been posted to your account in the BVP System. A complete list of FY 2015 BVP awards is available at: http://www.ojp.usdoj.gov/bvpbasi/.

The FY 2015 award may be used for National Institute of Justice (NIJ) compliant armored vests which were ordered after April 1, 2015. The deadline to request payments from the FY 2015 award is August 31, 2017, or until all available funds have been requested. Awards will not be extended past that date, and any unused funds will be forfeited.

Please see the following websites for a list of NIJ compliant vests:

Stab Resistant Vests: http://nij.gov/nij/topics/technology/body-armor/compliant-stab-armor.htm

As a reminder, all jurisdictions that applied for FY 2015 BVP funding certified that a mandatory wear policy was in place for their jurisdiction. BJA will be conducting reviews of the mandatory wear policies as funds are requested from the BVP System. For more information on the BVP mandatory wear policy, please see the BVP Frequently Asked Questions document: http://www.ojp.usdoj.gov/bvpbasi/docs/FAQsBVPMandatoryWearPolicy.pdf

REQUESTED INFORMATION

APA Project No. 2015-0105

1. On page 5, under Water Pollution of the Mined Land Use Plan & Reclamation Plan, it states that "Grading of the mine floor and surrounding terrain maintains runoff within the project parcel," however there is no depiction or further description of the stormwater management practices to be employed on-site. Has coverage been obtained with NYSDEC's Multi Sector General Permit for industrial stormwater discharges? If so, please provide a copy of any required SWPPP or otherwise please address.
2. On page 5, under Noise Pollution of the Mined Land Use Plan & Reclamation Plan, the plan should be revised to state whether screening will be performed on site, and if so, discuss any potential noise impacts and proposed noise mitigation measures on potential receptors.
3. On sheet One C1.1 of the site plans, the life of mine current area is depicted to expand beyond the southern boundary line of the proposed subject site tax parcel 10.2 onto adjacent property to the south named Lafayette Street owned by the Village of Tupper Lake. The Mine Description also describes this encroachment. Does the Village of Tupper Lake propose to include this property in their expansion request?
4. Please include the 25 feet mining setback from the current boundary of the life of mine in the Mine Land Use Plan & Reclamation Plan. Please also indicate the setback on the sheet plans.
5. Please provide a status update of the reclaimed DOT fill project associated with APA Permit No. 2014-171A, along with a depiction of the current limits of fill.
6. A reclamation timeframe needs to be included under Section 5, Reclamation, of the Mine Land Use Plan & Reclamation Plan. Please indicate whether reclamation will be concurrent with mining or occur at termination. The Agency encourages concurrent reclamation where feasible.

Dear Mayor Paul Maroun and the Village of Tupper Lake Board of Trustees:

As this being one of the hardest decisions I have ever made, please be advised that it is my intention to resign from my current position as the Electric Department Superintendent for the Village effective October 31, 2015.

Since 1992, I am proud to say there have been many accomplishments and undertakings by the Village of Tupper Lake and I am proud to have been part of them. Sometimes they seemed arduous but the rewards will always be remembered and beneficial to the community.

With this being said, I would like to express my extreme thanks to all current and past Village Boards for allowing me to serve you and this great community. And lastly to my fellow employees, both current and retired, my deepest appreciation for their dedication and support they have given me since 1992.

With respect to all,

John T. Bouck

Electric Superintendent

Re: Firm Hydro Energy for **October 1 – 31, 2015**

Dear :

We are pleased to advise you that we anticipate there will be **no reduction in firm hydro energy sales to our hydropower customers for the period of October 1 through 31, 2015.** The forecasted October 2015 generation is projected to be sufficient to meet our firm hydropower customers' needs. However, if that generation is not sufficient, Substitute Energy will be purchased on your behalf for those customers with signed Substitute Energy agreements.

Since hydro shortfalls may still be anticipated in future months, we remain prepared to provide Substitute Energy to assure continuous flow of the lowest cost power to you. For those customers who have executed a Substitute Energy agreement, the Power Authority will automatically purchase the Substitute Energy on your behalf in months that a shortage occurs, pursuant to those agreements, unless otherwise notified. The monthly price for Substitute Energy is an average of all Substitute Energy provided to firm hydropower customers each month.

Current estimates are no shortage for November 2015 through April 2016. We will continue to analyze more current data monthly and provide this type of rolling 6-month forecast each month.

If you have any questions, please contact Brandon Cole at (914) 287-3585 or by e-mail at Brandon.Cole@nypa.gov.

Sincerely,

Keith T. Hayes
Vice President- Marketing

3. State the program of meter reading and billing in effect during the year and the date of any change within the year in that program. Give for each class of consumers the dates within each month when meters are generally read, the date when billing usually is completed, and the last month and the latest day of that month for which sales are reported above.

METER READING BEGINS ON THE 19TH AND TAKES 6 DAYS.

BILLS ARE MAILED ABOUT THE 5TH OF EACH MONTH.

SALES ARE REPORTED THROUGH MAY 31, 2015

* At end of year. In this column, show for account 604 the operating municipality as an individual consumer, and for account 606 include each active service connection.

125. SALES BY SERVICE CLASSIFICATIONS -- ELECTRIC

1. Show hereunder by months the number of bills rendered and the sales of electric energy under each schedule and service classification. When the same rate is contained in more than one schedule, all sales and revenues under that rate may be combined, but each schedule and each service classification No. must be shown in the controlling heading above the columns in which sales are listed.
2. Contract sales within each month to others than public authorities for public use, not charged under a filed tariff, may be combined under a general heading "Contract sales": all current delivered to the operating municipality should be combined under "Sales to the operating municipality": sales to the other municipalities for street lighting purposes or under special arrangements should be grouped under " Sales to other municipalities". Amounts of revenue should be reported on the same basis as entries in column (f) of schedule 119 and amounts receivable on other than a monthly basis may be allocated in equal amounts to the months to which applicable.
3. Below line 13 show the manner in which the sales under the service classifications of contracts were distributed to the revenue accounts, and the number of bills applicable to each account.
4. The kw.h. shown on this schedule shall be measured by consumers' meters, or in the case of sales not metered, estimated at the point of delivery to the consumer, or in the case of street lighting for which the utility furnishes the conductors, at the lamp.
5. Show hereunder by months the following information with respect to the Purchased Power Adjustment Clause (PPAC) a) PPAC factor per kwh as shown on monthly statements; b) total kwh to which the PPAC factor was applied; c) revenues generated from the application of the PPAC; and d) differential in present and base costs by month entered in Totals For Year schedule only, i.e., the difference between actual purchased power billings and the base purchased power cost(s).
6. In footnotes provide the following: a) Base Purchased Power Cost(s) and the period for which effective; b) the factor of adjustment for distribution system efficiency and c) date(s) consumer meters are read, indicating if on a monthly or bi-monthly billing period.
