Would you like a courtesy call when we turn the power back into your name? \_\_\_\_\_

Please check one:    YES                    NO

**This landlord agreement is offered instead of turning off the power and subjecting the property to the potential of frozen water lines or other damage. This is done for your protection and upon your consent. This agreement however, requires compliance on your part. Your compliance is completed upon payment of the Village electric bill(s) when they are due each month. If payment of the bill (s) is not made, then you are in default under the agreement and the Village may turn off the electricity to the above stated property immediately without further notice. If the power is turned off due to not complying with this agreement, any resulting damage shall not be the Village's responsibility but the owners.**
