If you're working on homes, schools or day care centers built pre-1978, you now must be EPA Lead-Safe Certified.

WHAT

The Lead-Based Paint Renovation, Repair and Painting (RRP) rule is a federal regulatory program affecting anyone who disturbs painted surfaces where lead may be present.

- Submit an application to certify your firm for five years.
- A one-day class will certify your renovators for five years.
- Learn the required steps to contain the work area, minimize dust and thoroughly clean up every day.

WHO

• Any contractor, including renovators, electricians, HVAC specialists, plumbers, painters and maintenance staff, who disrupts more than six square feet of lead paint in pre-1978 homes, schools, day care centers and other places where children spend time.

WHY

1. Avoid risk of government fines and civil liability:
 - Without certification and by not following approved practices, you and your company can face tens of thousands of dollars in fines and put yourself and your company at risk of potential lawsuits.
2. Protect your workers, yourself and your customers from a health risk:
 - Dust from renovation, repairs and painting can contaminate an entire home and, if inhaled or ingested, can cause irreversible damage to children and adults.
3. Gain competitive advantage:
 - Certification makes you stand out from others and positions you as a professional contractor consumers can trust. Using your company's certification in your marketing materials may help attract business.
 - Consumers will look for the certification before hiring contractors and may be more accepting of additional costs and time associated with doing the job safely.
 - Upon certification of your firm, your company will be listed as a Lead-Safe Certified Contractor on the EPA website, giving your firm the potential for new customers.

Contractor Training

The Village of Tupper Lake will be hosting a Lead Based Paint Renovator, Repair and Painting Contractor Training on Friday May 13, 2016 at the Tupper Lake Emergency Services Building, 21 Santa Clara Avenue in Tupper Lake. The Training session will run from 8:00 am to 5:00 pm, with a break for lunch, there is no charge for this training session. Any Contractors interested in bidding on the upcoming HUD HOME program housing rehab projects will need this certification along the other program requirements to be considered. Any questions you may call Mary at the Village offices at 518-359-3341 or Matt Taylor at the Development Authority at 315-661-3200.
