Village of Tupper Lake
Board of Trustees
Agenda

Date: Tuesday, May 20, 2014
Start: 6:00 pm
Location: Board Room
Meeting: Regular Monthly

1. Call Regular Monthly Meeting to order at 6:00 pm and establish the agenda.
2. Pledge of allegiance and moment of silence for the safe return of Collin Gillis.
3. Public Comment Period.
4. Mr. Rick Reandeau from Woodmen of the World will be present to donate some American Flags to the Village of Tupper Lake for our Municipal Electric Utility Poles throughout the community.
5. ESB Project updates from Mr. Sean Foran our construction manager with Heuber-Breuer Construction Company.
6. Chamber of Commerce would like to give us a brief update of upcoming events.
7. Eric Aycock with the Tupper Lake Housing Authority has asked to address the board concerning Section 8 Housing Choice Voucher Utilization.
8. Request for assistance with the Tupper Lake Tinman Triathlon in setting up and tearing down the transition area on June 23rd and June 30th respectively.
9. Authorization from Ms. Ann Paris to utilize the Municipal Park Pavilion on Saturday, June 19, 2014 from Noon to 5:00 pm to host a family reunion and to approve an alcohol permit if she is able to provide us with the necessary homeowner's rider for the alcohol use.
10. The APA is accepting public comments on the Unit Management Plan Amendments for the Bog River Complex and Cranberry Lake Wild Forest until May 30, 2014.
11. The Adirondack Association of Towns and Villages is holding their General Membership Meeting June 1 & 2, 2014 at the Crowne Plaza Resort in Lake Placid if anyone is interested in attending to please let Mary know.
12. Acknowledge upcoming events for the Adirondack Public Observatory and possible concerns with the Zombie Walk event and their 3-day Astrophotography Workshop.
13. Approve the Board Minutes from the April 21st, 24th and 30th, 2014 and May 1st, 2014.

Department Reports

Code Enforcement:

1. Thank the Town of Tupper Lake Board and their Code Enforcement Officer Mr. Paul O'Leary for their assistance with code enforcement and safety needs in the Village while Peter's been out. Acknowledge that Peter has returned on a part-time basis effective May 19, 2014.
2. The next Joint Planning Board Meeting is scheduled for this Wednesday, May 28, 2014 at 7:00 pm.

Fire:

1. Approve April's Monthly Report.
2. Candidate for Congress Ms. Elise Stefanik will be visiting the TL Volunteer Fire Department on Tuesday, May 20th at 11:00 am.
3. There will be a free Franklin County Rabies Clinic held at the TLFD on High Street, Thursday, May 29, 2014 from 5:00-8:00 pm.

4. Approve Mr. Randy Mandigo II to be a part-time fire relief driver.
5. Approve Mr. James Bankish and Mr. William Vaillancourt's membership to the Volunteer Fire Department.

Police:

1. Approve April's Monthly Reports.
2. Approve proposal received from NCC Systems for a camera surveillance system for the Municipal Park.
3. Acknowledge a thank-you letter received from Paramedic Mr. Buzz Sawyer with the TL Rescue Squad for the assistance of Officer Jordan Nason and Sergeant Wesley Hoyt for a patient in cardiac arrest.
4. Formally accept a $250.00 donation from Community Bank, NA for the Bicycle Rodeo to be held at the LP Quinn Elementary School on June 21, 2014 from 10:00 am to 2:00 pm.

DPW:

1. Formally authorize Mayor Maroun to execute a contract for shared services with neighboring Villages and Towns.
2. Review MOU with NYS DOT for our Multi-Use Recreational Connector Trail Plan.

Electric:

1. Their will be no reduction in firm hydro energy sales for the month of June 2014.
2. Authorization to attend the MEUA Northern Regional Meeting in Massena NY, June 5, 2014.
3. Acknowledge a thank-you letter received from Mr. Bruce Coffin Jr. from Big Wolf Lake for the assistance of Electric Supervisor Mr. Michael Poirier.
4. The 2013 IEEP Annual Report has been completed and is available for review.

Water/Wastewater:

1. There will be a special meeting Wednesday morning at 10:00 am with our Water/Wastewater Engineer to discuss our next steps for continuing to explore a new ground water supply.
2. Update on Lake and Wawbeek Avenue Utility Improvements, notice for bidders will be advertised on Wednesday, May 21, 2014 with a pre-bid meeting on Lake Street May 28, 2014 and bid opening on June 11, 2014.

Treasurer:

1. Approve the May 20, 2014 warrant for $195,820.39 for payment of the bills and the abstracts for the month of April, 2014.
2. Review the monthly cash position for April 30, 2014.
3. Ratify waiver of 30-day notice requirements for Guido's, Inc. dba Guido's Pizzeria for a wine and beer license.
4. Authorize Mayor Maroun to renew our Emergency Generator Planned Maintenance Agreement for 2014-15 for our generators at the Police, Fire, K of C and Municipal Electric Garage.

10-Minute Call-in Period:

Executive: To discuss proposed, pending or current litigation and to also discuss the employment history of potential candidates for the DPW laborer vacancy recently advertised.

Albany, New York 12207

Greetings,

I am writing you this letter to request information and documentation under the Freedom of Information Law with respect to the State's Section 8 Voucher Program administered by the Franklin County Community Housing Council.

For the purposes of determining the fair and equitable administration of the program in Franklin County and the equal access to all eligible persons in the county the Village of Tupper Lake Housing Authority requests the following information:

1. A copy of the existing contract between the State of New York and the Franklin County Community Housing Council as well as any and all required documentation of the Procurement Methods used in securing said contract including determination of qualification of the candidate in administering said program.

2. A census of the Section 8 Voucher program administered by the Franklin County Community Housing Council of Vouchers under lease in each of the following zip codes residing in Franklin County on the 30th Day of June of the Years 2013, 2012, 2011, 2010, 2009, 2008:
    i. Zip codes 12912, 12913, 12914, 12915, 12916, 12917, 12920, 12926, 12930, 12937, 12939, 12945, 12953, 12955, 12957, 12966, 12967, 12969, 12970, 12976, 12980, 12983, 12986, 12989, 12995, 13655, 13683

    Please include Voucher Number and leased zip code and the years voucher has been with the recipient. Please do not include any personal information of the recipient.

3. A census of the current Wait List for all applicants of the Section 8 Voucher program administered by the Franklin County Community Housing Council following the same parameters and details of the Voucher program in number 2 of the FOIL request.

4. Documentation of any and all involvement of the administration and contracting of administration of the Lesperance Housing located at 301-313 Mclaughlin Ave, Tupper Lake, New York. This property was administered by the Comlinks

On Tuesday, April 22, 2014 11:51 AM, Franklin County Housing Council <fcchc1@yahoo.com> wrote:
Morning Paul- Attached you will find the statistical information for both participants and for those that are currently on the waitlist. It only prints by census track so we typed in the areas for you. Our office has a current allocation of 387 vouchers to serve all of Franklin County, except for the village of Saranac Lake, as they have their own program operated through the Harriestown housing authority.

I am sure you are aware-The Section 8 voucher program has been under sequester since May of 2013. That basically means- as people go off the program we are currently unable to fill their opening with a new participant. Prior to the sequester, we were at 100% of utilization-now due to our inability to move applicants into these voucher openings, we currently have 70 openings. We have a regional meeting scheduled in May and are hopeful the sequester will be lifted and we will once again have the ability to refill these voucher openings.

If you review the data-of course Malone has the largest number of both applicants and participants, but if you look to the outlying communities-the average number of applicants and participants is fairly uniform. If you specifically look at the waitlist, other than Malone, you will see that Tupperlake and Brushton have the largest number of applicants currently on the waitlist. Therefore you can see that the families in Tupperlake are well aware of the availability of the program.

Please keep in mind that all units are filled on a first come first serve basis. Issues impacting those who enter the program are:

1. The number of available rental units in the area of choice.
2. The cost of the units- as they must meet the payment standard set by the program.
3. The financial income of the household which determines how much of a unit they can afford.
4. Whether the unit they wish to rent passes HQS-housing quality standards.
5. lastly-whether the landlord of the unit is will to rent to Section 8 families.

If you have any questions or are in need or further information of clarification, please do not hesitate to call. Eileen

May 5, 2014

To Whom It May Concern:

This year will mark the 32nd anniversary of the Tupper Lake Tinman Triathon. Since its humble beginning in 1983, when slightly more that 60 participants took to the waters at Little Wolf beach, the event has depended on the volunteerism and good faith of the community of Tupper Lake.

For the last three years, the Tinman has averaged around 600 entries, combined, in the full triathlon, the sprint and the team competitions. The triathlon world has become peppered with competitive races that dot the calendar making our success all the more incredible. It is the quality of our race that keeps competitors coming to Tupper Lake. This year, we have associated our race with the Toughman Half Ironman national racing series. Our hope is to gain national publicity through the Toughman series to increase our entries.

We thank you for your past support and we ask again this year for your help in making our race continue to be one the longest running events of its kind.

Mike Sparks and his able crew have been very cooperative with the Tinman. We have created a schedule with Mr. Sparks that has streamlined the set-up and tear-down of the transition area around the lake front area near the Pavilion. We are asking for the assistance of this crew again for the 32st annual Tinman.

- The set-up date is tentatively scheduled for Monday, June 23rd , from 7am to noon.
- The tear-down date is Monday, June 30th, from 7am to noon.
- Our manpower needs require the use of a three-man crew and one pickup truck.

Mike Spark's crew and our sturdy volunteers work hand in hand with the Town of Tupper Lake crew to set-up and tear-down the transition area which is the control center of the Triathlon. We appreciate their expertise and hard work.

Please contact the transition captain, Maynard Peroza (359-9347) with any communications needed.

Thank you for your support.

ADIRONDACK PARK AGENCY
ACCEPTING PUBLIC COMMENT
FOR
BOG RIVER COMPLEX AND CRANBERRY LAKE WILD FOREST UMP AMENDMENTS

RAY BROOK, NY – The Adirondack Park Agency (APA) is accepting public comment on State Land Master Plan conformance for two unit management plan amendments. The APA will accept written comments on the Bog River Complex and the Cranberry Lake Wild Forest UMP amendments until May 30, 2014.

The Box River Complex is located in the towns of Colton and Piercefield (St. Lawrence County), Long Lake (Hamilton County), and the Village and Town of Tupper Lake (Franklin County). This management unit includes the: Horseshoe Lake Wild Forest, Hitchins Pond Primitive Area, Lows Lake Primitive Area, and Conifer Easement lands.

The proposed amendments to the Bog River Complex include:

- Designation of a parking area and trail to the summit of Goodman Mountain;
- Formal recognition for the renaming of Goodman Mountain;
- Designation of a parking area and popular unmarked ski and hiking trail along the Bog River known locally as the Otter Point Trail.

The Cranberry Lake Wild Forest is located in St. Lawrence County in the Towns of Fine, Clifton, and Colton.

Proposed amendments to the Cranberry Lake Wild Forest UMP will create two new hiking/skiing connector trails, the Cranberry Lake 50 West and the Cranberry Lake 50 East for trails which loop around Cranberry Lake. Once implemented, these connector trails will provide hikers and skiers with a route to avoid 4 miles of NYS Route 3 which is presently part of the Cranberry Lake 50 trail. This amendment is designed to improve safety and increase the recreational experience. The Cranberry Lake 50 will still include a 1.5 mile section along Route 3 to provide access to community amenities in the hamlet of Cranberry Lake.

Please address written comments to:

NYS Adirondack Park Agency
P.O. Box 99
1133 NYS Route 86
Ray Brook, NY 12977
Or by email - apa_slmp@gw.dec.state.ny.us

Description of the proposed action is available for download from the APA's website at www.apa.state.ny.us.

The mission of the Adirondack Park Agency is to protect the public and private resources of the Adirondack Park through the exercise of the powers and duties of the Agency as provided by law. For more information, call the APA at (518) 891-4050 or visit www.apa.state.ny.us.

Subject: AATV June Meeting

Dear Adirondack Leader –
Please find attached an invitation to the June Membership meeting for the AATV. We hope that you will be able to join us or share the invitation with one of your board members so they can represent your municipality. In an effort to streamline registration, you can go to our website at http://aatvny.org/content/Generic/View/13 for electronic registration or to download forms and submit by mail or fax. We are finalizing speakers and will post a final agenda on this site also.
This is a great time to network with fellow Adirondack leaders and a beautiful time to be in Lake Placid. An invitation to our local legislators has been sent for them to join us on Sunday evening also.
We look forward to you or a representative joining us in Lake Placid.
Thank you

Village of Tupper Lake
Board of Trustees
Minutes

Date:	Monday, April 21, 2014
Location:	Board Room
Meeting:	Regular 5:00-7:25 PM
	At the Regular Meeting of the Board of Trustees held this date, the following were present: Mayor Paul A. Maroun, Trustees Leon LeBlanc, Richard Donah, Thomas Snyder, David Maroun and Village Clerk Mary A. Casagrain
Enter Executive Session	Motion by Trustee Snyder, seconded by Trustee Maroun to enter Executive Session at 5:00 pm to discuss the employment history for a future employee for our Emergency Services Building project. (Carried 5-0)
Exit Executive Session	Motion by Trustee Maroun, seconded by Trustee LeBlanc to Exit Executive Session at 6:00 pm. (Carried 5-0)
	Also present were Mr. Sean Foran our Project Manager with Heuber Breuer Construction Co., Inc., his assistant Ms. Annette Schillings, Town of Tupper Lake Board Member John Quinn, Chamber of Commerce President Adam Boudreau, residents Ronald LaScala and Scott Gravlin, Volunteer Fire Chiefs Ms. Tina Arsenault and Carl Steffen, Department of Public Works Superintendent Michael Sparks, Water/Wastewater Superintendent Mark Robillard, Electric Superintendent John Bouck, Police Chief Eric Proulx, Town of Tupper Recreation Director Michael Fritts, and News Reporters Dan McClelland and Shaun Kittle.
Call Regular Meeting To Order	Mayor Maroun called the Regular Meeting to order and established the agenda at 6:00 pm.
Pledge	Pledge of allegiance to the flag and a moment of silence and prayer for the safe return of missing teen Collin Gillis.
Open Public Comment Period:	
Sean Foran ESB Update	Mr. Sean Foran our Project Manager with Heuber Breuer Construction Co., Inc. gave a brief update to the public concerning the progress of our Emergency Services Building project and the current grant shortfalls as our bid award date approaches.
Ronald LaScala	Mr. Ronald LaScala asked about the grant funding guarantees made during a public meeting on the ESB project.
	Mr. Foran replied that at this time his funding guarantees may not be met.
Michael Fritts & Scott Gravlin Zombie Walk	Mr. Michael Fritts and Mr. Scott Gravlin advised the board that they are thinking about organizing a "Zombie Walk" where local children would dress as zombies and walk the main street collecting canned goods that could be donated by local patrons to the local businesses. Their hope was to have a brief parade through Park Street and then proceed to the Municipal Park for a family fun dance in conjunction with the State Theatre hosting the Rocky Horror Picture Show.

Mayor Maroun advised that they should complete a facility use form and formally request the date.

Julie King Request Lift Outdoor Wood Boiler Ban

Ms. Julie King asked that the Village Board consider lifting the ban on outdoor wood boilers inside the Village of Tupper Lake. Her e-mail stated that they now have an E-Classic Model with Levis Outdoor Boilers of Inlet NY that are more efficient than a typical indoor wood stove and chimney.

Mayor Maroun stated he would have our Code Enforcement Officer revisit the issue and look into what our neighboring communities, DEC and APA have to say about the issue before revisiting it formally.

R.K. Hite & Co. Inc. Appraisals

Motion by Trustee Donah, seconded by Trustee LeBlanc to authorize Mayor Maroun to sign the appraisal reviews for our Multi-use Trail Connector Project as submitted by R.K. Hite & Co. Inc. for the Tupper Lake Shopping Center, Inc., P.J. Hyde & Sons, Inc. and Tupper Lake of Albany, LP. (Carried 5-0)

Resolution of Support for the Roost Destination Marketing Plan

After a brief discussion concerning adoption of a resolution of support to fund the ROOST proposal received to create a tourism marketing and destination master plan and an update from Town of Tupper Lake Councilperson John Quinn, it was so moved by Trustee Maroun, seconded by Trustee LeBlanc to approve support to partner with ROOST for a three (3) year term. (Carried 5-0)

K of C Annual Auction

Mayor Maroun announced that the Knights of Columbus will be hosting their annual auction on Sunday, May 18, 2014 and they would welcome any donations whether in the form of financial or items to be auctioned off.

TL Lions Club Amusement of America Carnival

Mayor Maroun announced that the TL Lions Club will host an Amusements of America Carnival from July 21st to July 28th, 2014.

APO Grand Opening July 11, 2014

Mayor Maroun announced that the Adirondack Public Observatory (APO) will be holding its Grand Opening Ceremony on Friday, July 11, 2014 from 4:00 – 6:00 pm and they would like to formally invite all Village Board Members to attend.

Accept Letter of Retirement for Ms. Patricia Reandeau

Motion by Trustee Snyder, seconded by Trustee Maroun to formally accept Ms. Patricia Reandeau's letter of retirement effective today. (Carried 5-0)

Joint Planning Board Meeting

Mayor Maroun reminded the board that the next Joint Planning Board meeting bill be this Wednesday, April 23, 2014 at 7:00 pm.

Anzac Day for PTS Awareness

Motion by Trustee Donah, seconded by Trustee LeBlanc to formally approve the following resolution in support of declaring April 25, 2014 as Anzac Awareness Day for PTS Awareness:

WHEREAS, an Australian Soldier, Captain John McKay, suffering from Post Traumatic Stress, recently traveled to the Tri-Lakes and passed away atop nearby Scarface Mountain, and

WHEREAS, Anzac Day is celebrated each April 25th in Australia and New Zealand, to remember all their soldiers and veterans, especially those who fought in the Australian New Zealand Corps (ANZAC) during WWI in what is now Turkey, and

WHEREAS, Post Traumatic Stress (PTS) is an affliction suffered by many combat veterans returning "home," whether they be American veterans or those of allies, such as Australia and New Zealand, of which Captain McKay was one, and

WHEREAS, April 25th offers us in the Tri-Lakes an opportunity to specifically stress the importance of PTS awareness and our common need and duty to assist out returning veterans in their transition to life away from combat, then therefore be it

RESOLVED, that the Board of Trustees of the Village of Tupper Lake, does hereby declare April 25, 2014 as "Anzac Day for PTS Awareness," and encourages its community to join others in the Tri-Lakes and throughout the world to increase its awareness of Post Traumatic Stress suffered by our combat veterans and to assist in their need for understanding and treatment. (Carried 5-0)

Approve Minutes — Motion by Trustee Snyder, seconded by Trustee Maroun to approve the Board Minutes from March 18, April 7, 9, and April 14, 2014. (Carried 5-0)

Fire:
Accept March Report — Motion by Trustee Donah, seconded by Trustee Maroun to approve the March 2014 Monthly Report. (Carried 5-0)

Franklin County Mutual Aid Participation Approved — Motion by Trustee Snyder, seconded by Trustee Maroun to authorize participation in the Franklin County Mutual Aid Plan as proposed. (Carried 5-0)

Accept Election Results — Motion by Trustee Snyder, seconded by Trustee Donah to formally accept and congratulate the newly elected officers for the Tupper Lake Volunteer Fire Department for 2014-15 Year. (Carried 4-1, Trustee Maroun "Abstained")

Female Chief — Mayor Maroun also took the time to acknowledge our very first female 1st Assistance Chief Ms. Tina Arsenault and our first female Treasurer Ms. Rachel Dechene. He expressed a community thanks for their volunteerism.

Upcoming Events Summer — Fire Chief Carl Steffen briefly gave the board a general overview of the upcoming events for the volunteer fire department members for the summer. The schedule was so approved by Trustee LeBlanc, seconded by Trustee Maroun. (Carried 5-0)

Will Vaillancourt PT Fire Driver — Motion by Trustee Maroun, seconded by Trustee LeBlanc to reappoint Mr. William Vaillancourt as a part-time relief fire driver. (Carried 5-0)

Police:
Accept March Report — Motion by Trustee Snyder, seconded by Trustee Maroun to approve the March 2014 Monthly Police Report. (Carried 5-0)

Camera Proposals Tabled — The board tabled discussion on a camera surveillance for the Municipal Park awaiting Trustee Donah's request to walk the area with the Police Chief. It was so tabled by Trustee Donah, seconded by Trustee Maroun. (Carried 5-0)

Radar School Jordan Nason	Motion by Trustee LeBlanc, seconded by Trustee Maroun to authorize Police Officer Jordan Nason to attend radar school in Canton from May 5-8, 2014. (Carried 5-0)
DPW: NYS DOT Resolution #042114 A	Motion by Trustee Snyder, seconded by Trustee Donah to formally approve an Intersecting Road Resolution #042114 A presented to us by NYS DOT as part of their reconstruction project as presented. (Carried 5-0)
NYS DOT Lighting Committee Meeting	It was noted that the next NYS DOT Lighting Committee meeting will be held this Thursday, April 24, 2014 at 8:00 am.
Spring Clean-up & Ongoing Projects	Department of Public Works Superintendent Michael Sparks advised the board that they are starting to street sweep this week and he has several areas in the community of failed or failing storm water systems. For example, over 1000' of systems on Balsam Avenue, Chaney Avenue, Mt. View Avenue and McFarland Avenue.
Water/Wastewater: NNYWW Training	Motion by Trustee Snyder, seconded by Trustee Maroun to authorize five (5) members to attend the May 1, 2014 Northern New York Water Works Conference in Potsdam, NY. (Carried 5-0)
Electric: Electric Curtailment	There will be no reduction in firm hydro energy sales for the month of May 1-31, 2014.
NYPA Tree Program	Electric Superintendent John Bouck advised that the NYPA Tree Program where you buy one tree and get one tree free is open to April 30, 2014 if anyone in the community wishes to participate to please stop in and get the order forms.
American Flag Discussion	Trustee LeBlanc asked Electric Superintendent to order American Flags for display in time for Memorial Day throughout the community. It was so moved by Trustee Maroun, seconded by Trustee Snyder to proceed with ordering the necessary flags and brackets. (Carried 5-0)
Treasurer: Approve Warrant	Motion by Trustee Snyder, seconded by Trustee Maroun to approve the April 21, 2014 warrant in the amount of $146,964.61 for payment of the bills and abstracts for the month March 2014. (Carried 5-0)
Review Cash Position	Review the monthly cash position for March 31, 2014.
Copier Lease Renewal	Motion by Trustee Snyder, seconded by Trustee Maroun to authorize Mayor Maroun to execute a 60-month copier lease with US Bank through Office Systems for the office and police departments. (Carried 6-0)
General Fund Budget Transfers	Motion by Trustee Donah, seconded by Trustee Snyder to authorize budget transfers in the amount of $17,000.00 for the General Fund. (Carried 5-0)
Budget Work Sessions Scheduled	It was noted that the next budget work session would be April 24, 2014 at 4:00 pm and a special meeting on May 1, 2014 at 4:00 pm to approve the Water & Wastewater Re-levy.

Enter Executive Session	Motion by Trustee Donah, seconded by Trustee Maroun to enter Executive Session at 7:20 pm to discuss the employment history for several employees of the Water/Wastewater Department. (Carried 5-0)
Exit Executive Session	Motion by Trustee Donah, seconded by Trustee Maroun to Exit Executive Session at 7:25 pm. (Carried 5-0)
Water/Wastewater Workers	Motion by Trustee Snyder, seconded by Trustee Donah to approve a .25 cent and hour increase for Water/Wastewater Workers Mr. Maxwell Willett and Mr. Joseph Arsenault effective April 27, 2014 do to their completion of their water licensing. (Carried 5-0)
Adjournment	Motion by Trustee Maroun, seconded by Trustee Donah to adjourn at 7:26 PM. (Carried 5-0)

Subject: Waterfront Revitalization Grant

Dear Ms. McManus,

This is a formal request that the Village of Tupper Lake's Local Waterfront Revitalization Program grant application include a comprehensive review and update of the current Town and Village of Tupper Lake's Joint Land Use Code.

Resolutions supporting this request will follow from the Joint Village and Town of Tupper Lake Planning Board, Village of Tupper Lake Board of Trustees, and The Town of Tupper Lake Town Council.

Respectfully,

Paul O'Leary

Attach: Spring 2014 Workshops for the Adk Economic Strategies.pdf
Subject: Regional Meetings Ec Dev strategies

Adirondack Leaders –
Please find attached a flyer for the Regional Workshops being held throughout the Park to discuss the emerging Adirondack Economic Development Strategy. The goal is to have attendees help identify opportunities for sustainable growth in the Adirondack Park.

The sessions are open to the public and the focus is to invite local realtors, bankers, business owners, other local government officials, allied nonprofits and everyone interested in economic development to these meetings for their input.

For those in the southern end of the park, there is a meeting this Thursday in Mayfield, New York – apologies for the short notice but please try to attend.

Carol Hart
Executive Director
Adirondack Association of Towns & Villages
PO Box 777
Mayfield, New York 12117
office 518.661.7622 / fax 518.661.7623

Memorandum of Understanding
Between
The Upper Saranac Lake Association
And
The Tupper Lake Volunteer Fire Department

The Upper Saranac Lake Association (USLA) is donating a Harbor Guard Firehawk 24 Fire Boat (the boat) and a removable 40-foot dock (the dock) to the Tupper Lake Volunteer Fire Department (TLVFD) and the TLVFD is accepting the donation with the following understanding:

1. The boat and dock will be the property of the TLVFD.

2. The boat and dock will be maintained, stored and operated by the TLVFD.

3. The boat will be docked and used primarily for fire and rescue on Upper Saranac Lake.

4. The USLA acknowledges that the TLVFD may from time to time use the boat for emergency response at other locations and then return the boat to Upper Saranac lake as soon as practicable.

5. In the event the TLVFD chooses to discontinue, or is unable to continue operating the boat for the benefit of the Upper Saranac Lake community, the TLVFD will relinquish ownership and donate the boat back to the USLA.

Agreed on _____ 2014 By

_____ _____

Jonathan Landsberg, President USLA

Carl Steffen, Chief TLVFD

Chief Eric Proulx
Tupper Lake Police Department
Tupper Lake, NY 12986

Dear Chief Proulx,

I am writing you in regards to the emergency medical call that happened early this morning. The call was for a patient in cardiac arrest.

Police Officer Jordan Nason responded to the call. He attached the AED and began CPR. He was quickly joined by Sgt. Westley Hoyt. Officer Nason and Sgt. Hoyt were performing CPR on the patient upon my arrival.

With PO. Nason and Sgt. Hoyt being there to assist myself and my partner, Mike Provo, we were able to provide advanced medical care to the patient. Had it not been for PO Nason and Sgt. Hoyt not being there we would have had had limited options to help the patient. Despite our joint resuscitation effort the patient did not survive.

I am extremely grateful for the assistance I received from PO Nason and Sgt. Hoyt this morning.

I am very grateful for the very valuable assistance your department has provide me and my fellow members of the Tupper Lake Rescue Squad over the years.

Respectfully,

Buzz Sawyer, Paramedic

RESOLUTION # 052014A
AUTHORIZING VILLAGE MAYOR TO SIGN A CONTRACT FOR SHARED HIGHWAY SERVICES ON BEHALF OF THE VILLAGE

AT A MEETING of the Village Board of the Village of Tupper Lake held at 53 Park Street Tupper Lake, New York on the 20th day of May, 2014, upon calling of the roll by the Village Clerk the following members were:

Present:
Mayor Paul Maroun
Trustee Leon LeBlanc
Trustee Richard Donah
Trustee Tom Snyder
Trustee David Maroun

The following resolution was offered by Trustee who moved its adoption, and seconded by Trustee , to wit:

RESOLUTION authorizing the Village Mayor to sign a contract on behalf of the Village to permit the Village Department of Public Works Superintendent to share services with highway department heads in other municipalities who possess similar authorization for the borrowing or lending of materials and supplies and the exchanging, leasing, renting or maintaining of machinery and equipment, including the operators thereof, for the purpose of aiding the highway department head in the performance of his duties.

Whereas, all municipalities, including the Village of Tupper Lake have the power and authority to contract with other municipalities for the purpose of renting, leasing, exchanging, borrowing or maintaining of machinery and equipment, with or without operators; and

Whereas, all municipalities, including the Village of Tupper Lake, have the power and authority to borrow or lend materials and supplies to other municipalities; and

Whereas, it is hereby determined that the Village of Tupper Lake and other municipalities have machinery and equipment which is not used during certain periods; and

Whereas, it is determined that the Village of Tupper Lake and other municipalities often have materials and supplies on hand which are not immediately needed; and

Whereas, it is hereby determined that by renting, borrowing, exchanging, leasing or maintaining highway machinery and equipment and the borrowing or lending of materials and supplies, the Village of Tupper Lake and other municipalities may avoid the necessity of purchasing certain needed highway machinery and equipment and the purchasing, or storing, of a large inventory of certain extra materials and supplies, thereby saving money for the taxpayers; and

Whereas, it is recognized and determined, from a practical working arrangement, that no program of borrowing, exchanging, leasing, renting or maintaining of highway machinery and equipment or borrowing or lending of materials can be successful if each individual arrangement or agreement must receive prior approval by the Village Board and the governing board of each of the other municipalities which may be parties to such agreements, since such agreements must often be made on short notice and at times when governing boards are not in session; and

Whereas, it is incumbent upon each municipality to design a simple method whereby materials, supplies, equipment and machinery, including the operators thereof, may be obtained or maintained with a minimum of paperwork and inconvenience and with a swift approval process; and

Whereas, it is the intent of the Village of Tupper Lake Village Board to give the Village Department of Public Works Superintendent the authority to enter into renting, exchanging, borrowing, lending or maintaining arrangements with the persons serving in similar capacities in other municipalities without the necessity of obtaining approval of the Village Board prior to the making of each individual arrangement; and

Whereas, a standard contract has been prepared which is expected to be adopted and placed into effect in other municipalities, and will grant the person holding the position comparable to that of the head of the highway department in each of those other municipalities the authority to make similar arrangements; and

Whereas, it is hereby determined that it will be in the best interests of the Village of Tupper Lake to be a party to such shared services arrangements.

NOW THEREFORE, BE IT RESOLVED that the Village Mayor of the Village of Tupper Lake is hereby authorized to sign the following contract on behalf of the Village:

"CONTRACT FOR SHARED HIGHWAY SERVICES

"1. For purposes of this contract, the following terms shall be defined as follows:

"a) 'Municipality' shall mean any county, town or village which has agreed to be bound by a contract for shared services or equipment similar in terms and effect with the contract set forth herein, and has filed a copy of said contract with the Clerk of the Village of Tupper Lake.

"b) 'Contract' shall mean the text of this agreement which is similar in terms and effect with comparable agreements, notwithstanding that each such contract is signed only by the chief executive officer of each participating municipality filing the same, and upon such filing each filing municipality accepts the terms of the contract to the same degree and effect as if each chief executive officer had signed each individual contract.

"c) 'Shared Service' shall mean any service provided by one municipality for another municipality that is consistent with the purposes and intent of this contract and shall include but not be limited to:

"i) the renting, exchanging, or lending of highway machinery, tools and equipment, with or without operators;

"ii) the borrowing or lending of supplies between municipalities on a temporary basis conditioned upon the replacement of such supplies or conditioned upon the obtaining of equal value through the provision of a service by the borrower or by the lending of equipment by the borrower, the value of which is equal to the borrowed supplies;

"iii) the providing of a specific service for another municipality, conditioned on such other municipality providing a similar service, or a service of equal value, in exchange.

"iv) the maintenance of machinery or equipment by a municipality for other municipalities.

"d) 'Superintendent' shall mean, in the case of a county, the county superintendent of highways, or the person having the power and authority to perform the duties generally performed by county superintendents of highways; in the case of a town, the town superintendent of highways; and in the case of a village, the superintendent of public works.

"2. The undersigned municipality has caused this agreement to be executed and to bind itself to the terms of this contract, and it will consider this contract to be applicable to any municipality which has approved a similar contract and filed such contract with the Clerk of the Village of Tupper Lake.

"3. The Village of Tupper Lake by this agreement grants unto the Village Superintendent of Public Works the authority to enter into any shared service arrangements with any other municipality or other municipalities subject to the following terms and conditions:

"a) The Village of Tupper Lake agrees to rent, exchange or borrow from any municipality any and all materials, machinery and equipment, with or without operators, which it may need for the purposes of the Village of Tupper Lake. The determination as to whether such machinery, with or without operators, is needed by the Village of Tupper Lake shall be made by the Village Superintendent of Public Works. The value of the materials or supplies borrowed from another municipality under this agreement may be returned in the form of similar types and amounts of materials or supplies, or by the supply of equipment or the giving of services of equal value, to be determined by mutual agreement of the respective superintendents.

"b) The Village of Tupper Lake agrees to rent, exchange or lend to any municipality any and all materials, machinery and equipment, with or without operators, which such municipality may need for its purposes. The determination as to whether such machinery or material is available for renting, exchanging or lending shall be made by the Village Superintendent of Public Works. In the event the said Superintendent determines that it will be in the best interests of the Village of Tupper Lake to lend to another municipality, the said Superintendent is hereby authorized to lend to another municipality. The value of supplies or materials loaned to another municipality may be returned to the Village of Tupper Lake by the borrowing municipality in the form of similar types and amounts

of materials or supplies, or by the use of equipment or receipt of services of equal value, to be determined by the respective superintendents.

"c) The Village of Tupper Lake agrees to repair or maintain machinery or equipment for any city/county/town/village under terms that may be agreed upon by the Village Department of Public Works Superintendent, upon such terms as may be determined by the Village Department of Public Works Superintendent.

"d) An operator of equipment rented or loaned to another municipality, when operating such equipment for the borrowing municipality, shall be subject to the direction and control of the superintendent of the borrowing municipality in relation to the manner in which the work is to be completed. However, the method by which the machine is to be operated shall be determined by the operator.

"e) When receiving the services of an operator with a machine or equipment, the receiving superintendent shall make no request of any operator which would be inconsistent with any labor agreement that exists for the benefit of the operator in the municipality by which the operator is employed.

"f) The lending municipality shall be liable for any negligent acts resulting from the operation of its machinery or equipment by its own operator. In the event damages are caused as a result of directions given to perform work, then the lending municipality shall be held harmless by the borrowing municipality.

"g) Each municipality shall remain fully responsible for its own employees, including salary, benefits and workers compensation. Each municipality shall be liable for salaries and other compensation due to their own employees for the time the employees are undertaking a joint service pursuant to this contract, however the borrowing municipality shall reimburse the lending municipality for actual and necessary expenses upon receipt of written notice of such claim.

"4. The renting, borrowing, leasing, repairing or maintaining of any particular piece of machinery or equipment, or the exchange or borrowing of materials or supplies, or the providing of a specific service, shall be evidenced by the signing of a memorandum by the Village Department of Public Works Superintendent. Such memorandum may be delivered to the other party via mail, personal delivery, facsimile machine, or any other method of transmission agreed upon. In the event there is no written acceptance of the memorandum, the receipt of the materials or supplies or the acceptance of a service shall be evidence of the acceptance of the offer to rent, exchange or lend.

"5. In the event any shared services arrangement is made without a memorandum at the time of receipt of the shared service, the superintendent receiving the shared service shall, within five days thereof, send to the provider a memorandum identifying the type, time and date of the acceptance of the repair or maintenance shared service. In the event such shared service related to or included any materials or supplies, such memorandum shall identify such materials or supplies and the time and place of delivery.

"6. In the event a municipality wishes to rent machinery or equipment from another municipality or in the event a municipality wishes to determine the value of such renting for the purposes of exchanging shared services of a comparable value, it is agreed that the value of the shared Service shall be set forth in the memorandum.

"7. All machinery and the operator, for purposes of workers compensation, liability and any other relationship with third parties, except as provided in paragraph e of section three of this agreement, shall be considered the machinery of, and the employee of, the municipality owning the machinery and equipment.

"8. In the event machinery or equipment being operated by an employee of the owning municipality is damaged or otherwise in need of repair while working for another municipality, the municipality owning the machinery or equipment shall be responsible to make or pay for such repairs. In the event machinery or equipment is operated by an employee of the borrowing, receiving or renting municipality, such municipality shall be responsible for such repairs.

"9. Records shall be maintained by each municipality setting forth all machinery rentals, exchanges, borrowings, repair or maintenance and other shared services. Such records will be available for inspection by any municipality which has shared services with such municipality.

"10. In the event a dispute arises relating to any repair, maintenance or shared service, and in the event such dispute cannot be resolved between the parties, such dispute shall be subject to mediation.

"11. Any party to this contract may revoke such contract by filing a notice of such revocation. Upon the revocation of such contract any outstanding obligations shall be settled within thirty days of such revocation unless the parties with whom an obligation is due agree in writing to extend such date of settlement.

"12. Any action taken by the Village Department of Public Works Superintendent pursuant to the provisions of this contract shall be consistent with the duties of such official, and expenditures incurred shall not exceed the amounts set forth in the Village budget for highway purposes.

"13. A record of all transactions that have taken place as a result of the Village of Tupper Lake participating in the services afforded by this contract shall be kept by the Village Department of Public Works Superintendent, and a statement thereof, in a manner satisfactory to the Village Board, shall be submitted to the Village Board semiannually on or before the first day of June, and on or before the first day of December, of each year following the filing of the contract, unless the Village Board requests the submission of records at different times and dates.

"14. If any provision of this contract is deemed to be invalid or inoperative for any reason, that part shall be deemed modified to the extent necessary to make it valid and operative, or if it cannot be so modified, then it shall be severed, and the remainder of the contract shall continue in full force and effect as if the contract had been signed with the invalid portion so modified or eliminated.

"15. This contract shall be reviewed each year by the Village of Tupper Lake and shall expire five years from the date of its signing by the Village of Public Works Supervisor. The Village Board may extend or renew this contract at the termination thereof for another five year period.

"16. Copies of this contract shall be sent to the clerk and the superintendent of each municipality with which the Village Department of Public Works Superintendent anticipates engaging in shared services. No shared services shall be conducted by the Village Department of Public Works Superintendent except with the superintendent of a municipality that has completed a shared services contract and has sent a copy thereof to the clerk of his or her municipality and the Village Department of Public Works Superintendent."

"IN WITNESS THEREOF, the said Village of Tupper Lake has by order of the Village Board caused these presents to be subscribed by the Village Mayor this 20th day of May, 2014.

ATTEST:

Village of Tupper Lake, by:

Mary A. Casagrain
Village Clerk

Paul A. Maroun
Village Mayor

The Village Clerk is authorized and directed to file a copy of the foregoing contract as set forth in this resolution with the chief executive officer of the following municipalities:

Town of Franklin	Franklin County
Town of Brighton	Village of Saranac Lake
Village of Lake Placid	Town of St. Armand
Town of Tupper Lake	Town of Piercefield
Town of Santa Clara	Town of Long Lake
Town of Harrietstown	Town of Newcomb

This resolution shall take effect immediately.

The question of the adoption of the foregoing resolution was duly put to a vote on roll call which resulted as follows:

Mayor Maroun	AYE	Trustee Snyder	AYE
Trustee Leblanc	AYE	Trustee Maroun	AYE
Trustee Donah	AYE

RE: DRAFT MEMORANDUM OF UNDERSTANDING
PIN: 7804.81
TUPPER LAKE MULTI-USE TRAIL CONNECTOR
VILLAGE of TUPPER LAKE, FRANKLIN COUNTY

Dear Mayor Maroun:

On behalf of the NYSDOT Region 7 Planning Unit I have attached a copy of the Draft Memorandum of Understand (MOU).

The Draft MOU has been created in an attempt to finalize the ongoing issue of trail alignment. This Draft MOU has been provided to various NYSDOT offices.

Please review and provide any comments that might prove helpful to developing an official MOU document to which would be acceptable to all stakeholders.

If you have any questions or propose any substantial changes to the project please contact me at (315) 785-2529.

Sincerely,

Charles F. Roy
Regional Local Program Liaison, Region 7

cc: Project File

MEMORANDUM OF UNDERSTANDING
BETWEEN VILLAGE OF TUPPER LAKE AND
THE NEW YORK STATE DEPARTMENT OF TRANSPORTATION

I. Introduction

The purpose of this Memorandum of Understanding, (MOU) is to set forth the agreements and understandings which have been reached between the Village of Tupper Lake (Grantee), Franklin County New York having offices at 53 Park Street, PO Box 1290, Tupper Lake New York 12986 and the New York State Department of Transportation (Grantor), Freight & Passenger Rail Bureaus, having offices at FL 5 - AVE B - 10th ST, Albany New York 12232 regarding the federal aid funded Transportation Enhancement Project known as the Tupper Lake Multi-Use Trail Connecter.

The Grantee is developing the Tupper Lake Multi-Use Trail Connecter (Trail) which is a recreational pedestrian trail that connects several previously established trail systems. The Trail will use a section of the New York Central Railroad Company (rail corridor) located in the Village of Tupper Lake. The New York State Department of Transportation (NYSDOT), Freight & Passenger Rail Bureau is interested in preserving the rail corridor for a possible future transportation use as a turn around for rail operations.

II. Description of Property

The property subject to this MOU is defined in Liber 433, Page 441. The New York Central Railroad Company previously conveyed the property to Niagara Mohawk Power Corporation to include heirs or successors all right and interest to the premises. The deed reserves the right to the Grantor in connection with transportation operations to Permanent and Perpetual Rights and Easements as detailed in Liber 433 page 442. A copy of this deed is attached in Exhibit D identified as **Quitclaim Deed** of this MOU. The Grantee is proposing to use a portion of the deeded rights for transportation purposes by constructing the Trail. This use by the Grantee is contingent upon the stipulations spelled out in this MOU.

Exhibit A identified as **TRAIL PLAN – PL 1 and PL 2** as defined in Liber 433, page 441 provides the details of the trail limits as they pertain to this MOU.

Exhibit B identified as **OPTION 1: PROPOSED STONE DUST TRAIL ON EXISITNG RAIL BED** provides details of the proposed current build application for the Trail.

Exhibit C identified as **OPTION 2: RAIL SPUR SWITCH TURNAROUND TRAIL (ADJACENT TO FORMER RAIL BED)** provides Trail relocation details should a future transportation purpose as a turn around for rail operations become a reality.

III. Acquisition of the Property

The Grantee will acquire the necessary property rights from Niagara Mohawk Power Corporation (National Grid) to construct the Trail per Exhibit B identified as **OPTION 1: PROPOSED STONE DUST TRAIL ON EXISITNG RAIL BED** and Exhibit C identified as **OPTION 2: RAIL SPUR SWITCH TURNAROUND TRAIL (ADJACENT TO FORMER RAIL BED)**.

IV. Term of Memorandum of Understanding

The Grantee will maintain the pedestrian trail project as intended for a minimum of 10 years from the date of acceptance based upon construction completion.

Abandonment of the Trail project for its intended purposes by the Grantee is conditioned upon a concurrence by the NYSDOT.

V. Trail Construction Details

The Trail improvements are detailed in typical section located at Exhibit B identified as **OPTION 1: PROPOSED STONE DUST TRAIL ON EXISITNG RAIL**.

At any time, should the NYSDOT determine that the deeded property is required for use to resume a transportation purpose for rail operations; the Grantee will relocate the Trail per the details of typical section located at Exhibit C identified as **OPTION 2: RAIL SPUR SWITCH TURNAROUND TRAIL (ADJACENT TO FORMER RAIL BED)**.

The relocation will be at the expense of the Grantee and will include removal and disposal of the previously placed Trail improvements described by typical section located at Exhibit B identified as **OPTION 1: PROPOSED STONE DUST TRAIL ON EXISITNG RAIL BED**.

The relocation will be completed in a time frame mutually agreed to by the Grantor and the Grantee.

VI. Restoration Terms

Should the Grantee abandon the Trail as per the original approved use as a pedestrian trail and this abandonment is approved by the NYSDOT, the Grantee will remove and dispose of the previously placed Trail improvements described by typical section located at Exhibit B and identified as **OPTION 1: PROPOSED STONE DUST TRAIL ON EXISITNG RAIL BED**.

The removal will be completed in a time frame mutually agreed to by the Grantor and the Grantee.

VII. Location of MOU

This MOU will be filed with the Franklin County Office of Real Property.

THIS INDENTURE, made the 19th day of August
nineteen hundred and sixty-six

BETWEEN - THE NEW YORK CENTRAL RAILROAD COMPANY, A

corporation (s) organized and existing under the laws of the State (s) of Delaware,
having offices at 466 Lexington Avenue, in the Borough of Manhattan, City, County and State of New York, hereinafter referred to as the Grantor, and NIAGARA MOHAWK POWER CORPORATION, A CORPORATION ORGANIZED UNDER THE LAWS OF THE STATE OF NEW YORK, HAVING ITS PRINCIPAL OFFICE AT 300 ERIE BOULEVARD WEST, SYRACUSE, NEW YORK,

hereinafter referred to as the Grantee,

WITNESSETH, that the Grantor, for and in consideration of the sum of ONE DOLLAR ($1.00) and other good and valuable consideration in dollars, lawful money of the United States, paid by the Grantee, the receipt whereof is hereby acknowledged, does hereby remise, release and quitclaim unto the Grantee, the heirs or successors and assigns of the Grantee forever, all right, title and interest of the Grantor in and to the premises described in Schedule "A" inserted herein and a part hereof.

SCHEDULE "A" LIBER 433 PAGE 442

ALL THAT CERTAIN TRACT, PIECE OR PARCEL OF LAND SITUATE IN THE VILLAGE OF TUPPER LAKE, TOWN OF ALTAMONT, COUNTY OF FRANKLIN AND STATE OF NEW YORK, COMPRISING A PORTION OF THE OTTAWA BRANCH RIGHT-OF-WAY OF THE RAILROAD OF THE GRANTOR, EXTENDING NORTHERLY FROM A LINE DRAWN RADIALLY TO THE CENTER LINE OF SAID RIGHT-OF-WAY AT CHAINING STATION 3+035 THEREIN TO THE EASTERLY PROLONGATION OF THE NORTHERLY LINE OF FRONT STREET, INTERSECTING SAID CENTER LINE AT CHAINING STATION 9+200 THEREIN; AND BEING

IN PART, ALL THAT PORTION OF THE PREMISES CONVEYED BY JOHN HURD AND HANNAH W. T. HURD, HIS WIFE, TO NORTHERN ADIRONDACK RAILROAD COMPANY BY DEED DATED JANUARY 19, 1892, RECORDED IN THE OFFICE OF THE CLERK OF SAID COUNTY OF FRANKLIN IN LIBER 92 OF DEEDS, AT PAGE 158, AND FIRSTLY DESCRIBED IN DEED FROM CHARLES B. HIBBARD TO NORTHERN NEW YORK RAILROAD DATED NOVEMBER 5, 1895, RECORDED IN THE OFFICE OF THE CLERK OF SAID COUNTY OF FRANKLIN IN LIBER 103 OF DEEDS, AT PAGE 505, LYING NORTHERLY OF SAID LINE DRAWN RADIALLY TO SAID CENTER LINE AT CHAINING STATION 3+035 THEREIN; IN PART, ALL OF THAT PORTION OF SAID RIGHT-OF-WAY TITLE TO WHICH IS CLAIMED BY THE GRANTOR BY ADVERSE POSSESSION, EXTENDING NORTHERLY AND NORTHWESTERLY FROM SAID LINE DRAWN RADIALLY AT CHAINING STATION 3+035 TO THE SOUTHEASTERLY LINE OF THAT TRACT OR PARCEL OF LAND CONVEYED BY ADIRONDACK LAND COMPANY TO NORTHERN ADIRONDACK RAILROAD EXTENSION COMPANY BY DEED DATED MARCH 4, 1890, RECORDED IN THE OFFICE OF THE CLERK OF SAID COUNTY OF FRANKLIN IN LIBER 90 OF DEEDS, AT PAGE 404; IN PART, ALL OF THE PREMISES CONVEYED BY SAMUEL D. HOBSON TO THE NORTHERN NEW YORK RAILROAD COMPANY BY DEED DATED AUGUST 15, 1896, RECORDED IN THE OFFICE OF THE CLERK OF SAID COUNTY OF FRANKLIN IN LIBER 102 OF DEEDS, AT PAGE 532; IN PART, ALL THAT PORTION OF SAID TRACT OR PARCEL OF LAND CONVEYED BY ADIRONDACK LAND COMPANY TO NORTHERN ADIRONDACK RAILROAD EXTENSION COMPANY, BY SAID DEED DATED MARCH 4, 1890, RECORDED IN THE OFFICE OF THE CLERK OF SAID COUNTY OF FRANKLIN IN LIBER 90 OF DEEDS, AT PAGE 404; LYING SOUTHERLY OF THE EASTERLY PROLONGATION OF THE NORTHERLY LINE OF FRONT STREET; AND IN PART, ALL OF THE PREMISES DESCRIBED IN DEED FROM MRS. ALMENA ROBERTS TO WILLIAM SEWARD WEBB, DATED JUNE 5, 1893, RECORDED IN THE OFFICE OF THE CLERK OF SAID COUNTY OF FRANKLIN IN LIBER 95 OF DEEDS, AT PAGE 318;

EXCEPTING FROM THIS CONVEYANCE THAT PARCEL OF LAND DEDICATED FOR HIGHWAY PURPOSE ONLY, BY THE NEW YORK CENTRAL RAILROAD COMPANY TO THE VILLAGE OF TUPPER LAKE, BY DEED DATED DECEMBER 30, 1955, RECORDED IN THE OFFICE OF THE CLERK OF SAID COUNTY OF FRANKLIN IN LIBER 95 OF DEEDS, AT PAGE 318;

THE LANDS HEREBY CONVEYED CONTAIN 16.37 ACRES OF LAND, MORE OR LESS.

SUBJECT, HOWEVER, TO THE RIGHT OF THE VILLAGE OF TUPPER LAKE GRANTED BY THE NEW YORK CENTRAL RAILROAD COMPANY BY DEED DATED DECEMBER 30, 1955, RECORDED IN THE OFFICE OF THE CLERK OF SAID COUNTY OF FRANKLIN IN BOOK 358 OF DEEDS AT PAGE 313.

RESERVING, TO THE GRANTOR, IN CONNECTION WITH ITS TRANSPORTATIONS OPERATIONS, THE FOLLOWING PERMANENT AND PERPETUAL RIGHTS AND EASEMENTS:

(A) TO RECONSTRUCT, MAINTAIN, REPAIR, RENEW, USE AND REMOVE THE EXISTING RAILROAD SPUR OR SIDETRACKS AND ALL APPURTENANCES THERETO, TOGETHER WITH LEGAL CLEARANCES, SUBSTANTIALLY AS NOW LOCATED OVER, UPON, UNDER, ALONG AND ACROSS THE HEREINABOVE DESCRIBED PREMISES;

(B) TO RECONSTRUCT, MAINTAIN, REPAIR, RENEW, USE AND REMOVE THE EXISTING TEAM TRACK, KNOWN IN THE GRANTOR'S RECORDS AS TRACK NO. 66 AND ALL APPURTENANCES THERETO TOGETHER WITH LEGAL CLEARANCES, SUBSTANTIALLY AS NOW LOCATED OVER, UPON, UNDER, ALONG AND ACROSS THE HEREINABOVE DESCRIBED PREMISES; TOGETHER WITH THE PERMANENT AND PERPETUAL RIGHT AND EASEMENT TO USE SO MUCH OF SAID PREMISES AS SHALL BE NECESSARY FOR INGRESS AND EGRESS, AT ALL TIMES ON FOOT OR WITH VEHICLES, TO AND FROM THE STREET SYSTEM, FOR LOADING AND UNLOADING OF RAILROAD CARS ON SAID TRACK NO. 66 AND TO BACK UP TRUCKS AND OTHER VEHICLES IN CONNECTION WITH SAID LOADING AND UNLOADING; AND

Now: Front is now Dep St

(c) By the Grantor's agents, employees, patrons, lessees, licensees, contractors and workmen to enter upon the hereinabove described premises from time to time and at any and all times as may be necessary for any of the purposes aforesaid and for the purpose of operating over all the aforesaid railroad tracks with cars and engines.

TOGETHER WITH THE permanent and perpetual rights and easements to the Grantee to install, maintain, repair, replace, renew, use and remove an electric transmission line together with all necessary appurtenances thereto, in part, over, along, upon and across the northerly portion of the right-of-way of the Adirondack Branch, and in part, over, along, upon and across the easterly portion of the right-of-way of the Ottawa Branch, both of the railroad of the Grantor, situate in the Village of Tupper Lake, Town of Altamont, County of Franklin and State of New York, the center line of which transmission line is described as follows;

BEGINNING at a point within the right-of-way of said Adirondack Branch opposite Chaining Station 596+314 in its center line, said point being distant northerly 30 feet measured at right angles from said center line; and running

Thence N. 73°-30' E. parallel with and at all points distant northerly 30 feet from said center line, 3,810 feet to a point within said right-of-way opposite Chaining Station 600+134 in said center line;

Thence southeasterly, within the right-of-way of said Ottawa Branch, making on its southwesterly side an angle of 117°-52' with the last preceding course, 325 feet, more or less, to a point in the northerly line of Front Street, extended.

TOGETHER, ALSO, with the permanent and perpetual right and easement to the Grantee by its agents, employees and workmen to enter upon said last above described premises from time to time and at all times as may be reasonably required for the purpose of installing, stringing, constructing, maintaining, repairing, renewing and removing said transmission line and appurtenances thereto and for the purpose of cutting and removing trees or brush which, in the opinion of the Grantee, may interfere with or be likely to interfere with the safe operation of said transmission line.

AND by the acceptance of this deed, the Grantee covenants and agrees to and with the Grantor that:

(1) The center line of the transmission line constructed by the Grantee pursuant to the rights and easements herein granted shall be located at a minimum distance of thirty and no hundredths (30.00) feet northerly as measured at right angles from said railroad center line and twenty-seven feet and six inches (27'-6") above the top of rail of the main track of said railroad.

(2) The rights and easements herein granted shall be exercised and enjoyed by the Grantee, at all times in such manner as shall not interfere with the full use and enjoyment by the Grantor, and its agents, employees, lessees, licensees, patrons, contractors and workmen, of said railroad rights-of-way, including the rights to construct, reconstruct, repair, maintain, replace, renew, use, operate with cars and engines and remove any railroad spurs or sidetracks which now or at any time hereafter may be required by the Grantor, together with all necessary clearances and appurtenances thereto, over, upon, along and across said railroad rights-of-way as well as the right to enter upon said railroad rights-of-way for any of the aforementioned purposes.

(3) The Grantor hereby grants unto the Grantee, its successors, and assigns, the right and privilege of crossing over the right-of-way and roadbed of the railroad of the Grantor with guy wires, which wires shall be installed at such locations and under such conditions, including the necessary horizontal and vertical clearances of the aforesaid guy wires from the tracks of the railroad of the Grantor, as shall first be approved by the Chief Engineer of the Grantor, in

WRITING.

(4) IF THE OPERATION OF THE GRANTEE'S POWER LINES SHOULD AT ANY TIME CAUSE INDUCTIVE OR PHYSICAL INTERFERENCE WITH THE TELEGRAPH, TELEPHONE OR SIGNAL CIRCUITS,WIRES,APPURTENANCES OR FACILITIES OF THE GRANTOR OR OTHER TELEGRAPH,TELEPHONE OR POWER COMPANY NOW OR HEREAFTER LOCATED ON SAID RIGHT-OF-WAYS OF GRANTOR,THE GRANTEE HEREBY AGREES TO MAKE,IMMEDIATELY,AT ITS OWN COST AND EXPENSE,SUCH CHANGES IN ITS OWN LINES, OR FURNISH AND INSTALL PROTECTIVE DEVICES TO THE GRANTOR,OR OTHER TELEPHONE,TELEGRAPH, OR POWER COMPANY AS SHALL BE NECESSARY IN THE JUDGMENT OF GRANTOR TO ELIMINATE SUCH INTERFERENCE;AND

(5) WITHOUT THE PRIOR WRITTEN CONSENT OF THE GRANTEE THE GRANTOR SHALL NOT CONSTRUCT OR ERECT,OR ALLOW, PERMIT OR SUFFER TO BE CONSTRUCTED OR ERECTED ANY BUILDING OR OTHER STRUCTURE UPON A FORTY (40), FOOT, STRIP OF LAND TWENTY (20) FEET ON EITHER SIDE OF THE ABOVE DESCRIBED CENTER LINE, SITUATE IN THE CITY,COUNTY AND STATE AFORESAID.

AND THE COVENANTS AND AGREEMENTS CONTAINED IN THIS INDENTURE ARE AND SHALL BE DEEMED TO BE REAL COVENANTS RUNNING WITH THE LAND FOR ALL TIME AND SHALL INURE TO THE BENEFIT OF AND BE BINDING UPON THE PARTIES HERETO AND THEIR SUCCESSORS AND ASSIGNS FOREVER.

N. Y. Deed
Q. C.

TOGETHER with the appurtenances and all the estates and rights of the Grantor in and to said premises, subject, however, to the reservations, covenants and agreements set forth in said Schedule "A".

TO HAVE AND TO HOLD the premises herein remised, released and quitclaimed unto the Grantee, the heirs or successors and assigns of the Grantee forever, subject, however, to the aforementioned reservations, covenants and agreements contained in said Schedule "A".

AND the Grantor, in compliance with Section 13 of the Lien Law, covenants that it will receive the consideration for this conveyance or an equal sum and will hold the right to receive such consideration as a trust fund to be applied first for the purpose of paying the cost of the improvements, if any, made by it upon said premises and that it will apply the same first to the payment of the cost of any such improvements before using any part of the total of the same for any other purposes.

THE words "Grantor" and "Grantee" used herein shall be construed as if they read "Grantors" and "Grantees", respectively, whenever the sense of this indenture so requires and whether singular or plural, such words shall be deemed to include in all cases the heirs or successors and assigns of the respective parties.

IN WITNESS WHEREOF, the Grantor has duly executed this deed the day and year first above written.

Subject: Firm Hydro Energy for June 1 - 30, 2014

May 7, 2014

Mr. John Bouck
Electric Superintendent
Village of Tupper Lake
53 Park Street
P.O. Box 1290

Tupper Lake, NY 12986-0290

Re: Firm Hydro Energy for **June 1 – 30, 2014**

Dear Mr. Bouck:

We are pleased to advise you that we anticipate there will be **no reduction in firm hydro energy sales to our hydropower customers for the period of June 1 through 30, 2014.** The forecasted June 2014 generation is projected to be sufficient to meet our firm hydropower customers' needs. However, if that generation is not sufficient, Substitute Energy will be purchased on your behalf for those customers with signed Substitute Energy agreements.

Since hydro shortfalls may still be anticipated in future months, we remain prepared to provide Substitute Energy to assure continuous flow of the lowest cost power to you. For those customers who have executed a Substitute Energy agreement, the Power Authority will automatically purchase the Substitute Energy on your behalf in months that a shortage occurs, pursuant to those agreements, unless otherwise notified. The monthly price for Substitute Energy is an average of all Substitute Energy provided to firm hydropower customers each month.

The Power Authority continues to be concerned about the river flows projected for 2014. Current estimates are no shortage for July 2014 through December 2014. We will continue to analyze more current data monthly and provide this type of rolling 6-month forecast each month.

If you have any questions, please contact me at (914) 287-3131, keith.hayes@nypa.gov or your account executives Vanessa Perez at (914) 390-8147, vanessa.perez@nypa.gov or Jerry McLoughlin (914) 390-8222, Gerard.McLoughlin@nypa.gov.

Re: Municipal and Rural Electric cooperative Economic Development Program Annual Compliance Reporting January 1, 2013 through December 2013

Dear Mr. Bouck:
This letter is to inform you the Power Authority has concluded the 2013 annual compliance review for the Municipal and Rural Electric Cooperative Economic Development Program (EDP). As a result of NYPA's recent audit findings, we will make adjustments to the EDP hydro power allocations for all Municipal and Rural Cooperative customers.

The net impact of these revisions will be an increase to your firm hydro power contract demand. Beginning with the June 2014 NYPA power bill invoice, your revised **firm hydro demand will be 19288 kW** (Note: this total does not include firm peaking).
The overall goal of EDP is to encourage economic development, business expansion, and the creation and preservation of jobs within the State of New York. Complying with these audits help ensure the Power Authority's EDP program continues to provide low cost power that encourages economic development.

If you have any questions, please feel free to contact your account executive Vanessa Perez at (914) 390-8147, Vanessa.Perez@nypa.gov. or Jerry McLoughlin at (914) 390-8222 or Gerard.McLoughlin@nypa.gov.

On Thursday, May 8, 2014 1:52 PM, "ccormier@teamhydrosource.com" <ccormier@teamhydrosource.com> wrote:
Mark,

We are finishing modeling the electrical resistivity data and drafting a brief report. Drafts of the survey profiles and a location map are attached, and the following is a quick summary of the results so you can start to make plans if you need to, while we finish the report.

Two electrical resistivity survey lines were completed. As shown on the attached map, Line 1 traverses an east-west strip-cut through the forest to the east of Lead Pond Road, extending from the railroad bed eastward to the stream. Line 2 traverses along the ridge of the esker to the southeast of Pitchfork Pond, extending northwestward towards Spectacle Ponds.

In general, Line 1 shows relatively thin overburden (<50 feet, or so) is likely to be present along the western portion of the area surveyed. To the east, towards the stream valley, the overburden thickens to as much as 75 to 90 feet. Given the expected shallow water table depth, most of the overburden thickness should be saturated. This line was completed as northward as possible since outwash sand and gravel is mapped in this direction, while finer-grained lacustrine sand has been identified as underlying most of the area to the south.

Line 2 indicates that overburden here may be as much as 150 to 175 feet thick. The upper 20 to 40 feet is above the local water table and most likely unsaturated. However, there may be 100+ feet of overburden beneath the water table beneath most of the area surveyed. The top of the esker is undoubtedly comprised of coarse gravel. If these esker gravels (like those I showed you last winter on the other side of Wolf Pond) extend to depth, then this should be a very good area.

We are recommending three possible test well sites amongst these two areas, shown on the map and profiles and ranked as follows:

TW-B1 – On the esker, at the 350-foot station location on Line 2. It targets what appears to be ~100 feet or more of saturated overburden directly beneath the esker, where the sediments exhibit their highest relative resistivity range. By comparison, this is the same resistivity range exhibited by the sand/gravel deposits we encountered in the production wells developed for both Malone and Saranac Lake. Note that the map shows that the 200-ft radius extends slightly over the Big Wolf property to the east. If the Big Wolf property is designated as conservation land, then this may not matter.

TW-B2 – Very similar to TW-B1, but at the 625-foot station location on Line 2, where the saturated sediment may be slightly thicker, but the resistivity range is marginally less.

You have seen the access to the esker, first-hand. Both sites TW-B1 and TW-B2 are along the top of the esker ridge.

TW-B3 – On Line 1 off Lead Pond Road, at the 1000-ft station. It is where the saturated sediment appears to be both appreciably thick and demonstrates the highest relative resistivity beneath the surveyed area. The recommended location is within about 200 feet of a small hunting camp. However, given the nature of the overburden here, there

should be some latitude to move the site an appropriate distance away, if necessary. Access to this site would be via Lead Pond Road and then southward along a skidder trail that cuts through the wooded area. The survey line extends along the skidder trail.

I hope this is enough to get you started on getting access to these sites for test drilling. Thanks very much for all your help and for use of the four-wheeler. I don't think we could have completed the surveys without it.

Please let me know if you have any questions.

Claude

Re: Well-Siting Geophysical Survey Results/Recommended Test Well Sites

Dear Mr. Robillard:

HydroSource Associates, Inc. (HSA) has completed geophysical surveys on the Lyme Timber owned properties off Lead Pond Road and to the southeast of Pitchfork Pond, as authorized by the Village. HSA is providing this letter report summarizing the results of the geophysical surveys and the precise locations recommended for drilling test wells to confirm the productivity and quality of water that would be expected to be available were fully designed production well sources developed at these locations.

Geophysical Surveys & Interpretation of Results

During the week of April 28, 2014, electrical resistivity geophysical surveys were conducted over the two aforementioned locations on Lyme Timber property. The purpose of these surveys was to investigate and assess the subsurface hydrogeologic conditions of the area to determine parameters such as the depth from ground surface to the water table, the depth to bedrock (total soil/overburden thickness), and the likely nature and stratification characteristics of the underlying sediments. The primary objective was to evaluate whether and where coarse, permeable, sand and gravel sediments are most likely to occur beneath the property, and if so, where they are likely to be thickest and most productive in terms of developing wells that can deliver high rates of water production. The results were then used to identify promising locations for installation of test wells whose objective is to locate an aquifer source that is able to host a highly productive larger diameter well.

These well-siting surveys follow a series of previous surveys HSA had performed and whose results were used to identify other test well locations. Two test wells were installed in November, 2013, roughly 2,000 to 3,000 feet to the southwest of the current survey area along Pitchfork Pond. Although they indicated that sand and gravel aquifer sediments were present, the sediments were not sufficiently permeable to support a well with a production capacity that could satisfy the

Village's water demands. Other test well sites along the Raquette River that had been identified as a result of the previous surveys were pursued by the Village as a result. However, the owners of private land where these other test well sites were located were not agreeable to allowing the Village to develop a well source on their properties. Hence, the Village authorized these most recent surveys to identify alternate locations for developing a suitable groundwater source.

Two separate resistivity survey lines covering over 2,700 feet of linear distance were completed. Their approximate location and orientation are shown on Figures 1 and 2. Survey Line 1 was oriented roughly perpendicular to the axis of the stream valley draining Lead Pond, with the intent of maximizing the probability of traversing over the center of what may be a buried valley trough (i.e., the thickest section of overburden sediments). Outwash sand and gravel deposits have been mapped immediately to the north, with lacustrine sand present to the south.

Esker gravel along Big Wolf/Pitchfork Ponds

Survey Line 2 was performed along the axis of a prominent esker sand and gravel deposit that extends from Wolf Pond to the southeast shore of Pitchfork Pond. Prior well siting surveys and test well results to the southwest indicate that the bedrock in this area is deeply buried, and thus the saturated thickness of the overburden here may approach 100 feet or more. The intent of this survey was to identify where the esker sand and gravel is likely to possess the greatest saturated thickness and where coarse, permeable, sand and gravel sediments are most likely to occur beneath the surveyed area, and where they are likely to be thickest and most productive in terms of developing wells that can deliver high rates of water production. Profiles of the modeled resistivity data are also attached. They include notations that illustrate our interpretation of the subsurface conditions beneath each of the survey line locations.

Note that the profiles show distances in both meters and feet. This is because the resistivity equipment is designed to collect and model data in metric units. Thus, we use metric units when discussing the resistivity data and recommended test well sites with respect to their location along the survey lines. For all other distances and depths, we use the standard convention of English units.

Based on the survey results and our experience with numerous resistivity profiles and well installation confirmation of the results in similar local settings in New York State, we have adopted the following subsurface conceptual model. In terms of general stratification, bedrock is indicated near the bottom of the profiles by resistivity ranges in the thousands of ohm-meters. Unsaturated sand and gravel are shown at the top of the profiles, exhibiting resistivities in roughly the same range as bedrock. Water table is expected to immediately underlie this layer.

The middle-depth portions of the profiles show materials with comparatively lower ohm-meter resistivity signatures. Silt, clay, and/or till typically exhibit resistivity in the single digits to low hundreds of ohm-meters range. Saturated sand and gravel generally fall between the high resistivity of bedrock and unsaturated sand/gravel and the relatively low resistivity of silt/clay/till, and can vary depending upon the amount of silt present within the matrix and/or the lithologic make-up of the clasts (i.e., greater silica content usually results in a higher resistivity).

Line 1 - Line 1 is located in a flat, wooded stream valley mapped as underlain by outwash sand and gravel and lacustrine sand. The survey line was completed as northward as possible since outwash sand and gravel is mapped in this direction, while finer-grained lacustrine sand has been identified as underlying most of the area to the south. The electrical resistivity results indicate that the thickness of overburden underlying Line 1 likely ranges from 40 feet beneath the eastern portion of the line, to perhaps over 100 feet near the line's western end, with a possible area of coarser-grained, more permeable sediment present between roughly the 900 and 1100-foot stations. The static water table here is expected to occur within about 10 feet of ground surface. Hence, nearly the entire thickness of overburden sediments in this area should be saturated, offering ample saturated thickness to support a high-yield well if the sediments are sufficiently permeable.

Line 2 - Line 2 extends along the ridge of a prominent esker that occurs along the southern shore of Pitchfork Pond and extends for over two miles to the northeast. The ridge of the esker generally projects above the surrounding land mass, standing roughly 30 to 40 feet higher in elevation. Pitchfork Pond, wetlands, springs and streams, representing the local water table, are present along its base on both sides. Line 2 indicates that total overburden thickness beneath the survey location may be as much as 150 to 175 feet. The upper 20 to 40 feet of the esker are above the local water table and are therefore expected to be unsaturated. However, there may be 100+ feet of saturated overburden beneath the water table within most of the area surveyed. The top of the esker is undoubtedly comprised of coarse gravel similar to the picture above. If these extend to a sufficient depth below the water table, then this would be expected to be a very good area for developing high-yield well sources to serve the Village.

Recommended Test Well Locations

We are recommending three possible test well sites amongst these two areas. Each site is shown on the attached maps and profiles. They are ranked according to perceived yield potential, as follows:

TW-B1 – Test well site TW-B1 is located on the esker, at the 350-foot station on survey Line 2. It targets what appears to be ~100 feet or more of saturated overburden directly beneath the esker, where the presumed saturated overburden sediments exhibit their highest relative resistivity range. By comparison, this is the same resistivity range exhibited by sand/gravel deposits that comprise the aquifer tapped by production wells we developed for both Malone and Saranac Lake. Note that the map (Figure 2) shows that the 200-ft radius extends slightly over the Big Wolf property to the east. If the Big Wolf property is designated as conservation land, then this may not matter. Otherwise, it may be possible to obtain a variance, or move the test well site to the west to accommodate a 200-foot setback, if necessary.

TW-B2 – This site is very similar to site TW-B1, but at the 625-foot station location on Line 2, where the saturated sediment may be slightly thicker, but the resistivity range of the underlying saturated sediments are shown to be marginally less.

We understand that you have already reviewed the access route to the esker, first-hand. Both sites TW-B1 and TW-B2 are along the top of the esker ridge.

TW-B3 - Site TW-B3 is located on survey Line 1 off Lead Pond Road, at the 1000-ft station. It is where the saturated sediment appears to be both appreciably thick and demonstrates the highest relative resistivity beneath the surveyed area. The recommended test well location is within about 200 feet of a small hunting camp. However, given the nature of the overburden here, there should be some latitude to move the site an appropriate distance away, if necessary. Access to this site would be via Lead Pond Road and then southward along a skidder trail that cuts through the wooded area. The survey line extends along the skidder trail. The trail may need additional clearing to accommodate drilling equipment access. The ground was also somewhat wet when the surveys were performed (in April). If those conditions persisted, some gravel fill may be needed, as well. It is possible the ground may be drier and provide easier access during other times of the year.

Conclusions

The saturated thickness of the overburden deposits beneath either of the two areas surveyed should offer ample available drawdown for wells, as well as a long length of well screen – both critical parameters that support high-rate groundwater withdrawal. Both areas also appear to be located where there are minimal, if any, threats of contamination, with largely undeveloped upgradient watersheds. The area near Pitchfork Pond is also located along an esker deposit that extends for

more than two miles, and is expected to be hydraulically connected to the vast watershed area of Big Wolf Pond. The watershed area upgradient of the Lead Pond site is smaller, but still encompasses roughly three square miles, which should be ample to support a one to two million gallon per day well source.

Although we often succeed in reaching a client's yield target with the first well drilled, experience has shown that it is wise to budget for the drilling of more than one well in project plans. For Tupper Lake, we recommend that the Village plan on installing test wells at all three of the target locations, if necessary. This will serve multiple purposes since even if the first well drilled has adequate yield, it will still be necessary to drill additional wells to determine which site offers the best combination of yield, water quality, and in terms of cost to connect. Also, the NYSDEC requires at least three monitoring wells be established for permitting of a new production well, with at least one well being at least several hundred feet from the production well. If a production well source is ultimately developed in the Pitchfork Pond area, we expect that one of the prior test wells can be used to partly satisfy the NYSDEC's monitoring well requirements.

Please note that the modeled resistivity profiles are based on a bulk response of the sediments in the vicinity of the profile line. As such, the precise physical properties of geologic materials can vary somewhat from site to site. HSA may alter drill targets slightly based on a refined understanding of subsurface conditions at the sites based on new information gained as test well drilling progresses.

We are pleased to have identified promising sites to determine the potential for developing a groundwater supply for the Village of Tupper Lake, and are looking forward to proceeding with test well installation at these sites. If you have any questions, please contact us.

Sincerely,

Claude A. Cormier
President

Re: Well-Siting Geophysical Survey Results/Recommended Test Well Sites

Dear Mr. Robillard:

HydroSource Associates, Inc. (HSA) has completed geophysical surveys on the Lyme Timber owned properties off Lead Pond Road and to the southeast of Pitchfork Pond, as authorized by the Village. HSA is providing this letter report summarizing the results of the geophysical surveys and the precise locations recommended for drilling test wells to confirm the productivity and quality of water that would be expected to be available were fully designed production well sources developed at these locations.

Geophysical Surveys & Interpretation of Results

During the week of April 28, 2014, electrical resistivity geophysical surveys were conducted over the two aforementioned locations on Lyme Timber property. The purpose of these surveys was to investigate and assess the subsurface hydrogeologic conditions of the area to determine parameters such as the depth from ground surface to the water table, the depth to bedrock (total soil/overburden thickness), and the likely nature and stratification characteristics of the underlying sediments. The primary objective was to evaluate whether and where coarse, permeable, sand and gravel sediments are most likely to occur beneath the property, and if so, where they are likely to be thickest and most productive in terms of developing wells that can deliver high rates of water production. The results were then used to identify promising locations for installation of test wells whose objective is to locate an aquifer source that is able to host a highly productive larger diameter well.

These well-siting surveys follow a series of previous surveys HSA had performed and whose results were used to identify other test well locations. Two test wells were installed in November, 2013, roughly 2,000 to 3,000 feet to the southwest of the current survey area along Pitchfork Pond. Although they indicated that sand and gravel aquifer sediments were present, the sediments were not sufficiently permeable to support a well with a production capacity that could satisfy the

Village's water demands. Other test well sites along the Raquette River that had been identified as a result of the previous surveys were pursued by the Village as a result. However, the owners of private land where these other test well sites were located were not agreeable to allowing the Village to develop a well source on their properties. Hence, the Village authorized these most recent surveys to identify alternate locations for developing a suitable groundwater source.

Two separate resistivity survey lines covering over 2,700 feet of linear distance were completed. Their approximate location and orientation are shown on Figures 1 and 2. Survey Line 1 was oriented roughly perpendicular to the axis of the stream valley draining Lead Pond, with the intent of maximizing the probability of traversing over the center of what may be a buried valley trough (i.e., the thickest section of overburden sediments). Outwash sand and gravel deposits have been mapped immediately to the north, with lacustrine sand present to the south.

Esker gravel along Big Wolf/Pitchfork Ponds

Survey Line 2 was performed along the axis of a prominent esker sand and gravel deposit that extends from Wolf Pond to the southeast shore of Pitchfork Pond. Prior well siting surveys and test well results to the southwest indicate that the bedrock in this area is deeply buried, and thus the saturated thickness of the overburden here may approach 100 feet or more. The intent of this survey was to identify where the esker sand and gravel is likely to possess the greatest saturated thickness and where coarse, permeable, sand and gravel sediments are most likely to occur beneath the surveyed area, and where they are likely to be thickest and most productive in terms of developing wells that can deliver high rates of water production. Profiles of the modeled resistivity data are also attached. They include notations that illustrate our interpretation of the subsurface conditions beneath each of the survey line locations.

Note that the profiles show distances in both meters and feet. This is because the resistivity equipment is designed to collect and model data in metric units. Thus, we use metric units when discussing the resistivity data and recommended test well sites with respect to their location along the survey lines. For all other distances and depths, we use the standard convention of English units.

Based on the survey results and our experience with numerous resistivity profiles and well installation confirmation of the results in similar local settings in New York State, we have adopted the following subsurface conceptual model. In terms of general stratification, bedrock is indicated near the bottom of the profiles by resistivity ranges in the thousands of ohm-meters. Unsaturated sand and gravel are shown at the top of the profiles, exhibiting resistivities in roughly the same range as bedrock. Water table is expected to immediately underlie this layer.

The middle-depth portions of the profiles show materials with comparatively lower ohm-meter resistivity signatures. Silt, clay, and/or till typically exhibit resistivity in the single digits to low hundreds of ohm-meters range. Saturated sand and gravel generally fall between the high resistivity of bedrock and unsaturated sand/gravel and the relatively low resistivity of silt/clay/till, and can vary depending upon the amount of silt present within the matrix and/or the lithologic make-up of the clasts (i.e., greater silica content usually results in a higher resistivity).

Line 1 - Line 1 is located in a flat, wooded stream valley mapped as underlain by outwash sand and gravel and lacustrine sand. The survey line was completed as northward as possible since outwash sand and gravel is mapped in this direction, while finer-grained lacustrine sand has been identified as underlying most of the area to the south. The electrical resistivity results indicate that the thickness of overburden underlying Line 1 likely ranges from 40 feet beneath the eastern portion of the line, to perhaps over 100 feet near the line's western end, with a possible area of coarser-grained, more permeable sediment present between roughly the 900 and 1100-foot stations. The static water table here is expected to occur within about 10 feet of ground surface. Hence, nearly the entire thickness of overburden sediments in this area should be saturated, offering ample saturated thickness to support a high-yield well if the sediments are sufficiently permeable.

Line 2 - Line 2 extends along the ridge of a prominent esker that occurs along the southern shore of Pitchfork Pond and extends for over two miles to the northeast. The ridge of the esker generally projects above the surrounding land mass, standing roughly 30 to 40 feet higher in elevation. Pitchfork Pond, wetlands, springs and streams, representing the local water table, are present along its base on both sides. Line 2 indicates that total overburden thickness beneath the survey location may be as much as 150 to 175 feet. The upper 20 to 40 feet of the esker are above the local water table and are therefore expected to be unsaturated. However, there may be 100+ feet of saturated overburden beneath the water table within most of the area surveyed. The top of the esker is undoubtedly comprised of coarse gravel similar to the picture above. If these extend to a sufficient depth below the water table, then this would be expected to be a very good area for developing high-yield well sources to serve the Village.

Recommended Test Well Locations

We are recommending three possible test well sites amongst these two areas. Each site is shown on the attached maps and profiles. They are ranked according to perceived yield potential, as follows:

TW-B1 – Test well site TW-B1 is located on the esker, at the 350-foot station on survey Line 2. It targets what appears to be ~100 feet or more of saturated overburden directly beneath the esker, where the presumed saturated overburden sediments exhibit their highest relative resistivity range. By comparison, this is the same resistivity range exhibited by sand/gravel deposits that comprise the aquifer tapped by production wells we developed for both Malone and Saranac Lake. Note that the map (Figure 2) shows that the 200-ft radius extends slightly over the Big Wolf property to the east. If the Big Wolf property is designated as conservation land, then this may not matter. Otherwise, it may be possible to obtain a variance, or move the test well site to the west to accommodate a 200-foot setback, if necessary.

TW-B2 – This site is very similar to site TW-B1, but at the 625-foot station location on Line 2, where the saturated sediment may be slightly thicker, but the resistivity range of the underlying saturated sediments are shown to be marginally less.

We understand that you have already reviewed the access route to the esker, first-hand. Both sites TW-B1 and TW-B2 are along the top of the esker ridge.

TW-B3 - Site TW-B3 is located on survey Line 1 off Lead Pond Road, at the 1000-ft station. It is where the saturated sediment appears to be both appreciably thick and demonstrates the highest relative resistivity beneath the surveyed area. The recommended test well location is within about 200 feet of a small hunting camp. However, given the nature of the overburden here, there should be some latitude to move the site an appropriate distance away, if necessary. Access to this site would be via Lead Pond Road and then southward along a skidder trail that cuts through the wooded area. The survey line extends along the skidder trail. The trail may need additional clearing to accommodate drilling equipment access. The ground was also somewhat wet when the surveys were performed (in April). If those conditions persisted, some gravel fill may be needed, as well. It is possible the ground may be drier and provide easier access during other times of the year.

Conclusions

The saturated thickness of the overburden deposits beneath either of the two areas surveyed should offer ample available drawdown for wells, as well as a long length of well screen – both critical parameters that support high-rate groundwater withdrawal. Both areas also appear to be located where there are minimal, if any, threats of contamination, with largely undeveloped upgradient watersheds. The area near Pitchfork Pond is also located along an esker deposit that extends for

more than two miles, and is expected to be hydraulically connected to the vast watershed area of Big Wolf Pond. The watershed area upgradient of the Lead Pond site is smaller, but still encompasses roughly three square miles, which should be ample to support a one to two million gallon per day well source.

Although we often succeed in reaching a client's yield target with the first well drilled, experience has shown that it is wise to budget for the drilling of more than one well in project plans. For Tupper Lake, we recommend that the Village plan on installing test wells at all three of the target locations, if necessary. This will serve multiple purposes since even if the first well drilled has adequate yield, it will still be necessary to drill additional wells to determine which site offers the best combination of yield, water quality, and in terms of cost to connect. Also, the NYSDEC requires at least three monitoring wells be established for permitting of a new production well, with at least one well being at least several hundred feet from the production well. If a production well source is ultimately developed in the Pitchfork Pond area, we expect that one of the prior test wells can be used to partly satisfy the NYSDEC's monitoring well requirements.

Please note that the modeled resistivity profiles are based on a bulk response of the sediments in the vicinity of the profile line. As such, the precise physical properties of geologic materials can vary somewhat from site to site. HSA may alter drill targets slightly based on a refined understanding of subsurface conditions at the sites based on new information gained as test well drilling progresses.

We are pleased to have identified promising sites to determine the potential for developing a groundwater supply for the Village of Tupper Lake, and are looking forward to proceeding with test well installation at these sites. If you have any questions, please contact us.

Sincerely,

Claude A. Cormier
President

1.03 DATE: MAY 21, 2014

1.04 TO: POTENTIAL BIDDERS

A. The Village of Tupper Lake is requesting sealed bids for a water main and sewer main replacement project located on Lake Street and Wawbeek Avenue in the Village of Tupper Lake, NY before 3:00 pm local standard time on Wednesday the 11th day of June, 2014 and then publicly opened and read aloud at the Village of Tupper Lake offices at 3:00 pm.

B. Bid proposals submitted by U.S. Mail, private carrier, or hand delivered are to be sent to the Village of Tupper Lake at 53 Park Street, P.O. Box 1290, Tupper Lake, NY 12986 in care of Mary Casagrain, Village Clerk.

C. All bids shall be submitted in a sealed envelope with the words "Village of Tupper Lake Utility Improvements Project" clearly printed on the front.

D. Project Description: The project is for the replacement of roughly 1,375 linear feet of water main, 375 linear feet of sewer main, new water service laterals, and miscellaneous appurtenances within the Lake Street and Wawbeek Avenue rights-of-way.

E. Bid Documents are available on CD copy to any interested bidder at the office of AEDA, P.C. upon receipt of non-refundable payment, by cash or check, in amount of $25.00 per copy. Checks must be made payable to AEDA, P.C. Standard shipping charges will be additional if mailing is requested unless a FedEx, UPS or other carrier account number is provided by requesting party.

F. Bid Documents may also be examined at no expense at the following locations.

AEDA, P.C., 1246 Route 3, Plattsburgh, NY 12901; Tel. (518) 642-1800

Champlain Valley Builders Exchange, 5436 Peru Street, Plattsburgh, NY 12901; Tel. (518) 561-9414

Northern New York Builders Exchange, 22074 Fabco Road, Watertown, NY 13601; Tel. (315) 788-1330

Eastern Contractors Association, 6 Airline Drive, Albany, NY 12205; Tel. (518) 869-0961

G. Bidders will be required to provide Bid security in the form of a Certified Check or Bid Bond of a sum no less than 5 percent of the Bid Amount.

H. The project encourages participation of both MBE and WBE's as the Village of Tupper Lake is an equal opportunity organization. All qualified MBE and WBE's are encouraged to reply.

I. Refer to other bidding requirements described in Document 00 2113 - Instructions to Bidders and Document 00 3100 - Available Project Information.

J. A pre-bid conference for all bidders is scheduled for the Wednesday, the 28th day of May, 2014 at 10:00 am at the corner of Lake Street and Wawbeek Avenue. All prime contract bidders as well as interested sub-contractors should plan to attend this meeting.

K. Submit your offer on the Bid Form provided. Bidders may supplement this form as appropriate.

L. Your offer will be required to be submitted under a condition of irrevocability for a period of 45 days after submission.

M. All work shall be completed within 60 days of Notice to Proceed.

N. The Owner reserves the right to accept or reject any or all offers.

END OF BID SOLICITATION

Subject: RE: Tupper Lake Utility Improvements - Advertisement for Bids

Hi Mary,

Andy suggests publishing it in the Enterprise and Free Press as well as the press republican. We will notify some of the plan rooms on the 21st too.

Have a nice weekend,

Paul

Subject: Re: Tupper Lake Utility Improvements - Advertisement for Bids

Dear Paul,

The dates look good. Should I publish in our local newspaper on May 21st? or do you want it published in a larger circulation newspaper?

Thanks,
Mary C.

PENN POWER SYSTEMS
Power Generation Systems Specialists

Date of Proposal: 12/04/2013
Renewal#: 154C-E493-DD

EMERGENCY GENERATOR SET PLANNED MAINTENANCE AGREEMENT PREPARED FOR:
Village of Tupper Lake

Penn Power Systems hereby agrees to perform regularly scheduled maintenance and inspections of the emergency power generation systems as listed:

SERVICES TO BE PERFORMED:

1. Check fuel system day tank operation, fuel lines, connections, vents, main and day tank fuel levels.
2. Change fuel filter and water separator elements during the full P.M. service annually.
3. Visually check fuel system injection pump, solenoid(s), check valves governor controls, linkages.
4. Check oil lube system inclusive of the engine and governor oil levels, oil heater, lines and connections.
5. Change the lube oil and filters during the full P.M. service annually.
6. Check the cooling system inclusive of the coolant level, antifreeze, freeze point, inhibitor level, louvers, radiator air flow and core condition. Block heater(s), hoses, connections, pressure test radiator cap, belt condition and tension, fan shrouds, guards and brackets.
7. Check for external fuel, lube oil, coolant and exhaust leaks.
8. Check and record lube oil pressure, fuel oil pressure and engine coolant temperature gauge readings.
9. Check exhaust system, flex connection, supports, insulation and rain cap. Drain condensation drip legs.
10. Check batteries, charging system, terminals and cables. Check electrolyte level and specific gravity.
11. Load test Batteries. Clean battery post and terminals apply corrosion inhibiting film.
12. Check electrical system wiring connections and condition. Inspect lamps and fuses.
13. Check engine and generator instruments and meters for proper operation.
14. Check and test alarm sending units, pre-alarms, and safety shutdowns.
15. Check remote annunciator operation.
16. Check air intake piping, hoses, clamps, louvers, bypass actuators and air box Dampers.
17. Visually check air filter elements, air box canisters, breathers and crankcase ventilation systems.
18. Check engine and generator mounting bolts and vibration isolators.
19. Visually check generator bearings.
20. Check exciter assembly, stator and field for cleanliness and integrity.
21. Visually check rotating rectifiers and surge suppressor.
22. Check and record residual, no-load voltage.
23. Check voltage regulator and adjust if necessary.
24. Visually inspect generator breaker and bus bar connections for cleanliness and signs of overheating.
25. Check transfer switch compartment and components for cleanliness, integrity, overheating and wear.
26. Evaluate time delay settings
27. Check transfer switch exercise functions.
28. Perform start and stop functions from transfer switch with no load condition.
29. All readings, temperatures, transfer and retransfer times, Hour meter readings, and discrepancies annotated and submitted with detailed report to the appropriate individual(s) following each round of service.

Adjustments, calibrations and repairs will be made at an additional charge upon customer approval and a firm Purchase Order is issued.

Renewal #: 154C-E493-DD

Both parties further agree as follows:

A. **This is a 1 Year Agreement**

B. **Firm pricing for all units included within this Agreement shall be:**

Period	Package Type	Total Value Per Year	
01/01/2014 to 12/31/2014	1 Year Package	Equipment:	$2,715.00
		Taxes:	$0.00
		Total:	$2,715.00

C. **Equipment:** 4 Generator Set(s) and Transfer Switch(s)

	Site	Location	Equipment	Mfr.	Qty	Amount	Ext Amount
1	Municipal Bldg		130kW	Generac	1	$840.00	$840.00
2	Knights of Columbus		66kW	Iveco	1	$725.00	$725.00

TERMS AND CONDITIONS

Penn Detroit Diesel Allison, LLC, is a Pennsylvania Limited Liability Company doing business under the name Penn Detroit-Allison, as well as through certain named divisions, including but not limited to Penn Power Systems and Carrier Transicold of Pennsylvania East and West, of North Jersey and of Upstate New York. All current and future dealings and/or transactions between Penn Detroit Diesel Allison, LLC., any of its divisions, related entities and/or successors in interest and the Applicant, or any entity related to said Applicant, shall be subject to the following terms and conditions unless modified, in writing, by Penn Detroit Diesel Allison, LLC, and said terms and conditions shall supersede any inconsistent terms and conditions submitted by the Applicant or any other individual or entity unless expressly accepted in writing by Penn Detroit Diesel Allison, LLC.

Penn Detroit Diesel Allison, LLC ("PennDDA") agrees to extend credit, provide goods and/or services, rent equipment, and transact other business, as is from time to time necessary in accordance with the following terms and conditions ("Terms and Conditions").

1. Orders. Orders are subject to acceptance by PennDDA, in writing, and shall not be subject to cancellation or change in specifications, shipping schedules or other conditions originally agreed upon without PennDDA's written consent, and then only upon agreement to compensate PennDDA for loss caused by such cancellation or change, including costs of purchased materials, engineering costs, and reasonable profit.

2. Payment. Subject to the establishment of satisfactory credit, terms of payment are as set forth on any invoice; however, in no case shall the terms exceed net thirty (30) days from the date of said invoice. Partial billing will be made for partial shipments and stored materials. No retainage will be allowed unless agreed to in writing by PennDDA. Any sum that Applicant owes under an invoice, but fails to pay when due, shall be subject to a finance charge computed by applying a monthly periodic rate of 1.5% (corresponding annual rate of 18%), or the highest rate permitted by applicable law, if less, to the adjusted balance of an account. All prices are F.O.B. point of manufacture unless specified otherwise by PennDDA. Quotations expire thirty (30) days from the date issued, and are subject to termination within that period. At its sole discretion, PennDDA may extend quotations.

Goods held beyond delivery date for convenience of Applicant will be invoiced on the date of completion and terms of payment in such case will apply from invoice date. Such goods will be subject to charges for warehousing and other expenses incident to such delays.

The Applicant shall immediately inform PennDDA of any change in its financial condition or in the structure of its business entity, including, but not limited to, changes to or additions of bank or brokerage accounts, mergers and/or acquisitions, asset purchases or sales, name changes, changes of officers, and any litigation to which the Applicant is a party, including pending and/or threatened suits, both civil and criminal.

If the financial condition or the business structure of Applicant at any time does not, in the sole judgment of PennDDA, justify the continued extension of credit or the continuance of the work performed or the goods to be supplied on the terms of payment as set forth above, PennDDA may require partial or full payment in advance, or shall be entitled to cancel any part of any order then outstanding, and shall be entitled to payment for reasonable cancellations charges.

In the event of bankruptcy or insolvency of Applicant, or in the event any proceeding is brought against Applicant, whether voluntary or involuntary, under the bankruptcy or any insolvency laws, PennDDA shall be entitled to cancel any credit account and/or any order or portion thereof then outstanding at any time during the period for filing claims against the estate, and shall be entitled to payment for reasonable cancellation charges.

3. Designs. All designs and specifications shown in PennDDA's catalogues are subject to change without notice. PennDDA shall not be obligated to furnish Applicant with such changes on equipment previously delivered.

4. Force Majeure. PennDDA shall not be liable for any loss, damage, failure, inability and/or delay in delivery or performance due to: the acts of any government, acts of civil or military authority; accidents; fires; wars; act of terrorism; insurrections; civil disorders; floods; strikes; or other labor disturbances or difficulties; shortages of fuel or power; breakdowns of machinery; acts of God; acts of Applicant; failures in source of supply; or any other cause beyond the control of PennDDA; and PennDDA shall then have the right to cancel any order or pending work, or extend any shipping or delivery date, if one or more such contingencies prevent or delay shipment or performance hereunder.

5. Claims. All material is carefully packed for shipment. Risk of loss shall pass to Applicant after delivery to the transportation carrier, and Applicant shall continue to be obligated to pay the purchase price for the goods in the event of any damage, loss or destruction after delivery at the F.O.B. point. PennDDA will provide Applicant with all reasonable assistance in securing satisfactory adjustment of claims.

6. Equipment and Services Provided by Others. PennDDA shall not be responsible for equipment and/or materials supplied by others, nor for the overall operation of any system comprised of both equipment and/or materials furnished by PennDDA and others. Accordingly, any comments from PennDDA regarding Applicant-furnished drawings are responsive only and PennDDA shall have no liability therefore. PennDDA offers no opinion of a professional nature, including, but not limited to, the preparation or approval of plans, opinions, reports, surveys, designs, specifications and/or supervisory, inspection, or engineering services provided by others.

7. Installation and Start-Up. If requested in writing, PennDDA will provide field service technicians and engineers, if available, to supervise installation and start-up of its equipment at then-current rates.

8. Warranty. PennDDA warrants each product of its manufacture to be free from defects in materials and workmanship at the time of delivery. This warranty is non-assignable and shall not inure to the benefit of any person or entity other than Applicant.

This warranty covers only malfunctions resulting from defects in materials or workmanship. The Applicant is responsible for proper equipment installation and the performance of regular maintenance services as specified in the written materials accompanying the equipment or elsewhere.

This warranty does not cover conditions arising from the misuse, negligence, alteration, accident or lack of performance of normal maintenance services; any equipment which shall have been repaired by other than a PennDDA-authorized service outlet so as in any way, in the sole judgment of PennDDA, to affect adversely its performance and/or reliability; the replacement of maintenance items made in connection with normal maintenance services; loss of time, convenience, anticipated profits, use of the equipment or any other incidental, indirect, punitive, special or consequential damages; or equipment removal or reinstallation costs incurred in connection with the repair or replacement of defective equipment.

If any equipment, parts and/or materials supplied by PennDDA are manufactured by someone other than PennDDA, and said manufacture provides its own warranty, PennDDA's warranty shall be superseded with respect to such equipment, parts and/or materials. In that event, the manufacturer's warranty shall be the sole applicable warranty and PennDDA shall have no further liability or responsibility whatsoever, including any failure on the part of any other manufacturer to meet the conditions of its warranty. There is no warranty liability hereunder unless payment in full for the equipment supplied pursuant to any invoice has been received by PennDDA.

The repair or replacement, at PennDDA's option, of defective equipment under this warranty shall be performed by a PennDDA-authorized service outlet using new parts or, where applicable, remanufactured parts. Said repair or replacement shall take place within a reasonable time following the delivery, transportation prepaid, and in accordance with PennDDA's instructions, of the equipment to PennDDA, or its service outlet's place of business. If Applicant believes any equipment obtained from PennDDA is defective within the meaning of this warranty, Applicant shall notify PennDDA, in writing, within thirty (30) days of the discovery of such defect.

No equipment shall be returned to PennDDA or its service outlet without written authorization and shipping instructions first having been obtained from PennDDA. PennDDA must be in timely receipt of the warranty registration materials which accompanied the equipment, properly filled out, before any such warranty authorization will be issued.

THIS WARRANTY IS THE ONLY WARRANTY MADE BY PENNDDA, AND IS EXPRESSLY IN LIEU OF ALL OTHER WARRANTIES, EXPRESS OR IMPLIED, INCLUDING, BUT NOT LIMITED TO, ANY EXPRESS OR IMPLIED WARRANTY OF TITLE, MERCHANTABILITY, FITNESS FOR A PARTICULAR PURPOSE, NONINFRINGEMENT, USE OR WORKMANLIKE PERFORMANCE. EXCEPT AS OTHERWISE SPECIFICALLY SET FORTH HEREIN, REPAIR OR REPLACEMENT, AT PENNDDA'S OPTION, OF DEFECTIVE EQUIPMENT, IN THE MANNER PROVIDED HEREIN, SHALL CONSTITUTE FULFILLMENT OF ALL LIABILITIES OF PENNDDA TO APPLICANT, WHETHER BASED ON CONTRACT, NEGLIGENCE OR OTHERWISE, WITH RESPECT TO EQUIPMENT PROVIDED PURSUANT TO THIS INVOICE, AND IN NO EVENT SHALL PENNDDA BE LIABLE FOR ANY INCIDENTAL, INDIRECT, PUNITIVE, SPECIAL, OR CONSEQUENTIAL DAMAGES WHATSOEVER, INCLUDING, BUT NOT LIMITED TO, FOR LOSS OF USE, LOSS OF PROFITS, LOSS OF REVENUE, LOSS OF DATA, FAILURE TO REALIZE EXPECTED SAVINGS, DELAY, DETENTION, AND/OR ANY OTHER COMMERCIAL OR ECONOMIC LOSS OF ANY KIND. IN NO EVENT SHALL PENNDDA'S AGGREGATE LIABILITY TO APPLICANT, IN DAMAGES OR OTHERWISE, EXCEED THE TOTAL OF ALL PAYMENTS, IF ANY, RECEIVED BY PENNDDA FOR THE EQUIPMENT AND SERVICES PROVIDED PURSUANT TO THE TERMS OF ANY INVOICE. THE REMEDIES OF APPLICANT SHALL BE LIMITED TO THOSE PROVIDED HEREIN. IN NO EVENT SHALL PENNDDA BE LIABLE FOR ANY PERSONAL INJURY, INCLUDING DEATH, OR FOR DAMAGE TO PROPERTY OF THIRD PARTIES, UNLESS THE SAME IS THE RESULT OF THE SOLE GROSS NEGLIGENCE OF PENNDDA OR ITS EMPLOYEES.

9. Taxes. Prices quoted and/or invoiced are exclusive of taxes unless specifically stated. The amount of any present or any future sales, occupation, use, tariff, excise or other similar taxes and/or duties for which PennDDA may be liable, either on its own behalf or on behalf of Applicant, with respect to any orders for equipment and/or services, shall be in addition to the billing prices set forth in any invoice, and shall be paid by Applicant.

10. Remedies. Upon the failure of Applicant to make any payment when due under any invoice, to accept delivery at times stated, or to comply with all provisions of any invoice, and these Terms and Conditions, PennDDA shall have the right to suspend or cancel delivery to Applicant, and Applicant shall not have any cause of action or be entitled to any offset, counterclaim or recoupment against PennDDA by reason of such action. In addition to any remedies set forth in these Terms and Conditions, PennDDA shall be entitled to any and all rights and remedies available to it under law, and all rights and remedies available to PennDDA shall be cumulative. PennDDA shall be entitled to and Applicant responsible for any attorney's fees and costs incurred in connection with Applicant's failure to make any payment when due under any invoice, to accept delivery at times stated, retrieve any vehicle or other equipment from PennDDA property upon 30 days written notice or to comply with all provisions of any invoice and/or these Terms and Conditions

11. Title. Title to any equipment provided by PennDDA shall not pass to Applicant until the purchase price for any such equipment and for services related thereto are paid in full. In order to ensure payment in full, Applicant grants to PennDDA a security interest in the said equipment and authorizes PennDDA to file applicable Uniform Commercial Code financing statements with respect to said equipment, and Applicant shall, upon request, execute such financing statements and/or other instruments deemed necessary by PennDDA. PennDDA shall release such filings upon full payment. Where PennDDA installs parts and/or performs service on and/or stores any equipment or vehicles owned by Applicant or others on behalf of or at Applicant's request or direction, Applicant agrees that such installation and/or service and/or storage shall create a lien against such equipment and/or vehicles and PennDDA shall be entitled to hold said equipments and/or vehicles in its sole possession until payment in full has been received by PennDDA. If, after 30 days written notice to Applicant of Applicant's failure to pay and PennDDA's request for removal of said equipment and/or vehicle from PennDDA's property Applicant has not made payment in full and removed vehicle from PennDDA's property, Applicant shall be deemed to have abandoned said equipment and/or vehicle and PennDDA may dispose of said equipment and/or vehicle or sell said equipment and/or vehicle and retain all proceeds of said sale which are in excess of the balance owed by Applicant to PennDDA as liquidated damages. If said equipment and/or vehicle is titled or otherwise registered in a way which prohibits transfer without the title holder or registrant's acknowledgement, authorization and/or signature, Applicant shall acknowledge, authorize and/or execute any required document to facilitate any transfer contemplated hereunder and if Applicant fails to do so, this Application shall act as Applicant's acknowledgement and authorization for any Court to Order such transfer without judgment and/or any other process including advertisement and or public or sheriff sale otherwise required by law or regulation.

12. Export Shipments. All equipment shall be delivered packed in accordance with PennDDA's standard domestic packing methods, unless export packing is expressly ordered, in which case special packing requirements must be specified. PennDDA does not assume responsibility for obtaining any export or import license or certificate. Export shipment is subject to PennDDA's ability to ship under the laws and/or regulations of the United States and other governments. PennDDA reserves the right to cancel any order, whether or not previously acknowledged, without liability, if at the time of the sale or shipment said shipment is subject to restrictions or prohibitions by any governmental agency or department of the United States or of any foreign country claiming jurisdiction over the shipment's transit route or destination.

13. Indemnification. To the fullest extent permitted by law, Applicant agrees to indemnify and hold harmless PennDDA and all of its agents and employees from all claims, damages, losses, liabilities, actions, causes of action, costs, fines and expenses, including, but not limited to, interest, penalties, reasonable attorneys' fees and expenses, and all other amounts reasonably incurred in investigation, defense or settlement of any of the foregoing, arising out of, relating to, or resulting from, any act or failure to act pursuant to any invoice and these Terms and Conditions, except to the extent caused solely by the gross negligence of PennDDA or its employees.

14. Miscellaneous. All clerical errors are subject to correction. None of Applicant's rights under these Terms and Conditions shall be assigned or transferred by Applicant to any other person or entity, whether by operation of law or otherwise, without PennDDA's prior written approval. The failure of PennDDA to enforce any rights under these Terms and Conditions shall not constitute a waiver of any such rights, or any other rights, under these Terms and Conditions. This invoice and these Terms and Conditions, as set forth herein, or as changed or modified by written instrument executed by persons duly authorized by PennDDA and Applicant, shall constitute the entire agreement between PennDDA and Applicant. Any invoice and these Terms and Conditions shall be governed by and construed in accordance with the laws of the Commonwealth of Pennsylvania, notwithstanding any conflict of law provision to the contrary, and all disputes arising under any invoice and/or these Terms and Conditions shall be resolved in the state courts of the Commonwealth of Pennsylvania, or in the United States District Court for the Eastern District of Pennsylvania. All of the provisions of these Terms and Conditions are separate and severable. If any of the provisions hereof are held to be invalid or unenforceable, such invalidity or unenforceability shall not affect the validity or enforceability of any other provision hereof.

Your Feedback Is Important to Us

At ***Penn Power Systems*** we pride ourselves on continually striving to improve our services. We ask that you take a few moments to complete this survey and return it with your renewal agreement or fax to (315) 451-5040. Your feedback is very much appreciated.

Please circle the choices below on a category of 1-to-5 – 1 being poor service and 5 being excellent.
