May 20, 2019

Dear Mayor Paul A. Maroun:

Pursuant to Uniform Justice Court Act §2019-a, it is the duty of every justice to present his/her records and docket, at least once a year, to the auditing board of the village or town, which shall examine said records or docket, or cause same to be examined, and enter in the minutes of its proceedings the fact that they have been duly examined.

Consistent with Section 2019-a of the Uniform Justice Court Act, [I/we] hereby advise that the court's records and docket are available to be presented for such examination. [I/we] look forward to working with you to schedule such examination in an expeditious manner.

It is my understanding that OCA's Internal Audit Services (IAS) unit will be corresponding with you as well in the very near future in this regard. Subsequent to the audit or examination, please forward to the IAS unit the audit report, as well as the Board's resolution noting that the records have been duly examined, and that the fines therein collected have been turned over to the proper officials of the [Town/Village] as required by law. Such materials may be mailed to the following:

Internal Audit Services Unit
Attn: Joan Casazza
2500 Pond View, Suite LL01
Castleton-on-Hudson, NY 12033

In the alternative, such materials may be sent via email to: jcasazza@nycourts.gov

Thank you.

Very truly yours,

Judge Christopher J. Delair

RECEIVED
JUN - 6 2019

Mayor Paul Maroun
Village of Tupper Lake
53 Park Street
P.O. Box 1290
Tupper Lake, NY 12986

Dear Mayor Maroun:

Section 2019-a of the Uniform Justice Court Act requires that town and village justices annually provide their court records and dockets to their respective town and village auditing boards, and that such records then be examined, and that fact be entered into the minutes of the board's proceedings.

The Unified Court System's Internal Audit office is responsible for monitoring town and village board compliance with Section 2019-a. Accordingly, I am requesting that you provide a copy of the audit of your local court's records for fiscal year ending in 2019 and a copy of your board resolution acknowledging that the required examination was conducted. Please email the report and the resolution to jcasazza@nycourts.gov or mail to George Danyluk, Chief Internal Auditor, NYS Unified Court System, 2500 Pond View, Suite LL01, Castleton-on-Hudson, NY 12033. Please respond by September 3, 2019.

If you have any questions, please contact Joan Casazza at (518) 238-4303 or at the email listed above. Thank you for your cooperation.

Very truly yours,

/smw

2019 Smart Growth Grant Application

Motion by Trustee Maroun, seconded by Trustee LeBlanc to approve the following resolution of support of a 2019 Smart Growth Grant Application as follows:

RESOLUTION IN SUPPORT OF
2019 SMART GROWTH GRANT APPLICATION

WHEREAS, the Department of Environmental Conservation has issued a Notice of Funding Availability for the 2019 Adirondack Park Smart Growth Grant round; and

WHEREAS, the Village of Tupper Lake is seeking funding to implement Smart Growth priorities identified utilizing 2007 Adirondack Park Smart Growth Grant funding; and

WHEREAS the proposed funding will advance the community's revitalization efforts by leveraging essential commercial building façade improvements in the Park Street and Main Street/Junction Depot historic downtown areas; and

WHEREAS the proposed funding will complement and add value to previous DEC Smart Growth Grant Program investment in the Park Street and Junction Depot downtown areas; and

WHEREAS, the Village of Tupper Lake Board of Trustees fully supports the proposed funding application, which will be implemented in partnership with the Franklin County Local Development Corporation Main Street Program; and

WHEREAS, the Village of Tupper Lake will support and leverage this project through donation of Director of Community Development and Codes Enforcement Officer staff time; and

WHEREAS, this project advances the Vision and the Strategies of the North Country Regional Economic Development Council Strategic Plan by improving the tourism infrastructure and implementing local community revitalization plans; and

WHEREAS, this project advances the goals and strategies of the Advantage Adirondacks Economic Development Strategy, the Tupper Lake Economic Development Strategy, and the Tupper Lake Revitalization Strategy.

NOW HERE BE IT RESOLVED:

That Mayor Paul Maroun is hereby authorized and directed to file an application for funds from the 2019 Adirondack Park Smart Growth Implementation Program of the New York State Department of Environmental Conservation, in the amount of $100,000, and upon approval of said request, to enter into and execute a state assistance contract with the Department of Environmental Conservation for such financial assistance.

CERTIFICATE OF RECORDING OFFICER

I, Mary Casagrain, the duly qualified and acting Clerk of the Village of Tupper Lake, New York, do hereby certify that the attached resolution was adopted at a regular meeting of the Village of Tupper Lake Board of Trustees held on May , 2019 and is incorporated in the original minutes of said meeting, and that said resolution has not been altered, amended or revoked and is in full force and effect.

Chief Eric Proulx
Tupper Lake Village Police Department
PO Box 750
Tupper Lake, NY 12986

Dear Chief Proulx,

The Adirondack Canoe Classic, The 90 Mile Canoe Race from Old Forge to Saranac Lake will take place September 6-8, 2019. On behalf of the Central Adirondack Association, we would like to request the assistance of the Village of Tupper Lake Police Department during the event on Saturday, September 7 at the entrance to the Fishing access site on Routes 3/30 from 1 to 4 PM.

The race day two starts at Bissell's field on Long Lake at 8:30 AM. Paddlers will make their way up Long Lake and follow the Raquette River downstream headed toward Tupper Lake. Your assistance with traffic control around the entrance to "The Crusher" would once again be appreciated.

I have been in contact with the Franklin County Traffic Safety Board. We have again requested two traffic speed warning devices that we could use to aid in attracting motorist attention to slow down when approaching the area around the Crusher.

Thank you for your consideration and support of the Adirondack Canoe Classic. Please let me know if we can count on your continued support.

Regards,

Brian McDonnell
Race Manager

RE: Plan Review Comments
Village Tupper Lake WWTP & Collection System Improvements
SPDES #NY0029939
Tupper Lake (V), Franklin

Dear Mayor Maroun:

I have reviewed plans titled, "Village of Tupper Lake WWTP & Collection System Improvements" prepared by Capital Consultants Architecture and Engineering and dated March 2019. Please have your engineering consultant address the following comments generated based on a review in accordance with "Ten States Standards for Wastewater Facilities, 2014 Edition".

1. On each profile, please identify the locations of, and distinguish between new and existing manholes, as well as label the type (filleted, typical, or inside drop), and specify which connections are inlets or outlets.
2. Please depict all water/sewer crossings on profile drawings.
3. Please specify the direction of flow on each profile drawing.
4. On Sheet C-100, please expand the view, as the label in the top right corner is not fully visible.
5. Please be advised that an APA permit may be required for wetland crossings.

If you have any questions regarding these comments I can be contacted by e-mail at madisen.hetman@dec.ny.gov or phone at 518-897-1263.

Sincerely,

Madisen L Hetman

Re: Clean Water State Revolving Fund (CWSRF) Project No. C5-5534-03-00
Wastewater Treatment Plant & Collection System Improvements
Village of Tupper Lake
Franklin County
SPDES No. NY0029939
Change Order Approval

Dear Mayor Maroun:

The New York State Environmental Facilities Corporation (EFC) has reviewed your submissions for the referenced water pollution control project. Enclosed, please find the EFC stamped cover pages for the following documents:

Contract No. 1 - General with North Country Contractors, LLC at an original contract amount of $369,999.00

Change Order No.	Description of Change Order	Amount
1	Time extension	$0.00
2	For additions and deductions	$3,018.93
	Total Change Order Amount (this review)	$3,018.93

The reviewed submission is hereby approved and made eligible for Clean Water State Revolving Fund (CWSRF) financial assistance by the EFC. The submission meets CWSRF program requirements and applicable State rules, regulations, and standards concerning the design of wastewater treatment facilities and water pollution control projects. EFC has been delegated authority by the New York State Department of Environmental Conservation (NYSDEC) to approve engineering reports, plans and specifications, addenda, and associated change orders for projects that are eligible for CWSRF financial assistance.

Please contact your EFC MWBE representative about the need to submit a revised utilization plan. If you should have any questions or need assistance with the MWBE-EEO program, please contact me at MWBE@efc.ny.gov.

The review of the above submission was not a detailed analysis of the costs presented but has been conducted to ensure that the proposed changes do not alter the scope of the project and that the changes do not include ineligible items for which CWSRF assistance cannot be provided. Please be advised that if these revisions/modifications cause your project cost to exceed the amount of your CWSRF financial assistance, additional funding will not be available until a supplemental financing has been made.

If you have any questions please call Mr. James Geiger, Project Engineer, at (518) 402-7396.

Sincerely,

Cheryle Webber, P.E.
Program Manager
Northern & MWBE Project Section

RE: Comprehensive Compliance Inspection
Tupper Lake WPCP
SPDES #NY0029939
Tupper Lake (V), Franklin County

Dear Mayor Maroun:

Enclosed for your records is a copy of the inspection report for the announced WPCP inspection I conducted on Wednesday, May 1, 2019, in the presence of Water & Sewer Superintendent Mark Robillard. The Publicly Owned Treatment Works (POTW) received a satisfactory rating. However, please take note of the comments in the enclosed report and the following summary of key points offered for your consideration.

Collection System

The regulations 6 NYCRR Part 750-2.9(a)(4) require that publicly owned treatment works (POTW) enact, maintain and enforce a current Sewer Use Law. Please provide a copy of the signed and dated Sewer Use Law serving the Tupper Lake POTW to me by June 14, 2019. This may be submitted electronically.

WPCP Operations System

6 NYCRR Part 750-2.8(a)(2) requires proper operation and maintenance (O&M) of the disposal facilities. The high-density RBC replacement discs/shafts (installed 2009) must be weighed periodically per the manufacturer's manual, to not exceed 50,000 lbs. The date and results must be recorded.

WPCP Maintenance

6 NYCRR Part 750-2.5(c)(1) requires that the permittee retain maintenance records. Currently the WPCP maintains a logbook of daily activities completed, which is not readily searchable for planning future maintenance tasks. Many wastewater

facilities use planning software to track O&M at their facilities. The operator should investigate this software, some of which is free.

6 NYCRR Part 750-2.8(a)(2)(ii) states that proper operation and maintenance includes written procedures for operation and maintenance. The O&M manual must be updated to reflect the new liquid chlorination and dechlorination equipment and procedures, and any other changes which have been implemented since 1992.

Monitoring, Recording, Reporting

One year of wastewater facility operation reports were reviewed prior to the inspection. The operators are reminded to please complete all pertinent sections of the form in accordance with the permit conditions and 6 NYCRR Part 750-2.5(1) regulation. This includes wastes amounts removed from the plant (grit, screenings, sludge).

Staffing

The WPCP was rescored to reflect the disinfection changes and dechlorination requirement, and the nitrification limit which was added in Dec. 2015 (please see the enclosed score sheet). The WPCP requires Grade 3 certification for the chief wastewater operator. Please provide a written plan or strategy to this office by June 14, 2019, which will comply with the Grade 3 certification requirement in accordance with the 6 NYCRR Part 650 regulations.

Permit Compliance Schedule

Plans and specifications were received 4/17/19 for the Pump Station #3 (Demars Boulevard) upgrade, as described in the approved (1/11/17) engineering report for this project, titled, "Village of Tupper Lake Preliminary Engineering Report for Wastewater Treatment Plant and Collection System Improvements," prepared by C2AE (August 2016). The plans and "specs" are currently under review. It is understood that the Village hopes to go to bid with the Pump Station #3/Demars Blvd. upgrades during summer 2019.

The Department thanks Mr. Robillard for his time during the inspections. Please provide the requested information to my attention by June 14, 2019. If you have any questions or comments regarding the enclosed, please contact me at the above number or by email at tamara.venne@dec.ny.gov.

Sincerely,

Tamara J. Venne
Environmental Program Specialist 2

				(a) No./type/cleaning method(Auto/manual)?	manual	Part 750-2.8
3.	◉	○	○	Screenings/Grit removal (records)?	records should be maintained on Mo. Op. Rpts.	Part 750-2.5
4.	○	○	◉	Flow equalization present/needed?		Part 750-2.8
5.	◉	○	○	Settling/Septic tanks?	3 primary clarifiers	Part 750-2.8
6.	○	○	◉	Sludge depth in primary clarifiers?	sludge is drawn to BFP every 2-3 days	Part 750-2.8
7.	○	○	◉	Condition of primary clarifier effluent?		Part 750-2.8
8.	○	○	○	Other (Specify):		

E. Secondary Biological Treatment:

☐ NI ☐ NA

	S	U	NR/NA	Item:		F
1.	○	○	◉	Fixed film/Suspended growth (Specify recycle rate)	all 3 trains online, media growth looks normal	Part 750-2.8
2.	◉	○	○	Rotating Biological Contactors (Specify shaft weight/flow)		Part 750-2.8
3.	○	○	◉	Activated sludge/MBR/SBRs		Part 750-2.8

■ Click Left Button to Clear Radio Button

4.	○	○	◉	Foaming/filamentous issues?		Part 750-2.8	
5.	○	○	◉	Stabilization Ponds/Lagoons		Part 750-2.8	
6.	○	○	◉	Sand filter (recycle rate)		Part 750-2.8	
7.	○	◉	○	Process control values	shafts not weighed, D.O. not monitored	Part 750-2.8	✓
8.	○	○	○	Other (Specify)	3 blowers, each one dedicated to a specific RBC train		

F. Secondary Clarifier: ☐ NI ☐ NA

	S	U	NR/ NA	Item:		F
1.	○	○	◉	Foam/solids/grease present on surface?	Part 750-2.8	
2.	◉	○	○	Tank/weir cleaning date & weir level?	#1 cleaned Fall '18, both cleaned Fall '17, usually done 2x/yr — Part 750-2.8	
3.	○	○	◉	Denitrification/gas bubbles on surface?	Part 750-2.8	
4.	◉	○	○	Sludge blanket depth & RAS/WAS rates?	blankets checked periodically, WAS to primaries every other day — Part 750-2.8	
5.	◉	○	○	Scum arm condition?	Part 750-2.8	
6.	◉	○	○	Secondary effluent quality?	Part 750-2.8	
7.	○	○	◉	Unplanned loss of solids reported/observed?	Part 750-2.8	
8.	○	○	○	Other (Specify)		

G. Tertiary Treatment: ☐ NI ☐ NA

	S	U	NR/ NA	Item:		F
1.	○	○	◉	Filtration (Ultra/RO)	Part 750-2.8	
2.	○	○	◉	Microfiltration	Part 750-2.8	
3.	○	○	◉	Activated carbon adsorption	Part 750-2.8	
4.	◉	○	○	Nitrification	no ammonia violations in past 5+ yrs (ICIS DMR review) — Part 750-2.8	
5.	○	○	◉	Denitrification	Part 750-2.8	
6.	○	○	◉	Ammonia stripping	Part 750-2.8	
7.	○	○	◉	Phosphorus removal?	monitor only — Part 750-2.8	
8.	○	○	○	Other (i.e. Mercury removal, Bag filters, etc.) (Specify):	information re MMP was provided via email to POTW — Part 750-2.8

H. Disinfection:

☐ NI ☐ NA

	S	U	NR/NA	Item:			F
1.	◉	○	○	Chlorination type (Gas/Liquid) (Dosage/feed pump settings)	12.5% sodium hypochlorite solution	Part 750-2.8	
2.	◉	○	○	Chlorine monitoring (level)?	Permit requires < 0.055 mg/L in effluent to pond	Part 750-2.8	
3.	○	○	◉	Ultraviolet (UV) light (Setting)?		Part 750-2.8	
4.	○	○	○	Other (Specify):	dechlorination with 38% sodium bisulfite solution		

I. Final Effluent:

☐ NI ☐ NA

	S	U	NR/NA	Item:			F
1.	○	○	◉	Polishing pond (Odor/foam/solids/algae)		Part 750-2.8	☐
2.	◉	○	○	Effluent quality (Odor/turbidity/color)	good clarity	Part 750-2 8	☐
3.	○	○	◉	Receiving water condition(Up/downstream)		Part 750-2.8	☐
4.	○	○	◉	Outfall sign at each discharge point?	replacement signs have been made for SSOs	Part 750-1.12	☐
5.	◉	○	○	Other (Specify):	no permit violations in 2018 per ICIS data review		☐

J. Sludge Handling:

☐ NI ☐ NA

	S	U	NR/NA	Item:			F
1.	◉	○	○	Sludge disposal? (List name and loc. of disposal sites/hauler)	Franklin Co SWMA	Part 750-2.8	
2.	○	○	◉	Digestion functioning properly?		Part 750-2.8	
3.	○	○	◉	Sludge pumps	1 plunger pump rebuilt 3-4 yrs ago	Part 750-2.8	
4.	◉	○	○	Sludge Dewatering	Belt Filter Press	Part 750-2.8	
5.	○	○	◉	Maintenance of sludge pumps	pump is repacked periodically per Supt	Part 750-2.8	
6.	◉	○	○	Records available for disposal practices?		Part 750-2.5	
7.	○	○	○	Other (Specify):			

K. Sampling Evaluation and Lab Information:

☐ NI ☐ NA

	S	U	NR/NA	Item:			F

Nitrification by other process and Denitrification, 4J	10	**Total Score (add subtotals 1 thru 7 plus Flow Points)**	56

Wastewater Treatment Plant Rating Worksheet for Wastewater Treatment Plant Certification (Ref: Part 650.3, 650.6)

Attached is the scoring system for wastewater treatment plants in New York State. Scoring will be done to determine the certification grade of the chief operator and the assistant/shift operator needed at each wastewater treatment plant. The operator grades are divided into two designations, a number (1, 2, 3, or 4 with 1 being the lowest and 4 the highest grade), and the letter "A" for wastewater treatment plant operators working at facilities using the activated sludge process. All other treatment processes have no letter designation.

The scoring system is based on types of treatment processes at the wastewater treatment plant and flow. **Generally the treatment unit receives points only for its designed purpose or function** (example - a spare aerobic digester being used as a gravity thickener only receives points for an aerobic digester). Below are some basic guidelines for completing the scoring sheet. These guidelines are intended to cover most but not all possible options. DEC, specifically FOAS, will make the final determination regarding scoring questions. No additional points will be given for units/items not listed in the scoring system.

1) **Flow Scoring** - Flow scoring should be based on the 30 day average design flow limit of the treatment plant. If the 30 day average design flow is not known, the SPDES permit 30 day average flow limit should be used. If the average design flow is not known and there is no SPDES permit flow limit, flow points will be based on actual flow measurements - the flow points will be calculated from the maximum recorded 30 day average flow. The calculated flow point score should be rounded to the nearest whole number.
Example; 3 pts x 6.4 MGD = 19.2 or 19 Flow Points.

2) **Raw sewage or effluent pumping** - can be onsite, or offsite such as a pump station if there are no connections between the pump station and the plant.

3) An **aerated grit chamber** is not a preaeration unit.

4) A **flow equalization basin** must be a unit designed for flow equalization, not a sewer or an empty tank.

5) **Secondary Treatment** - Secondary Clarifier scoring is included in the secondary treatment processes. No additional points are given for secondary clarifiers.

6) **Lagoons** - No double scoring for lagoons. Example; the first lagoon is aerated and subsequent lagoons are unaerated, scores 7 points for the aerated lagoon, no additional points for the unaerated lagoon.

7) **A lagoon or pond is not an activated sludge process** unless it meets the following definition; A mixture of wastewater and activated sludge is agitated and aerated. The activated sludge is then separated from the treated wastewater by sedimentation and returned or wasted to the process as needed.

8) **Trickling Filters** - No double scoring for trickling filters. Two trickling filters in series or parallel are 1 unit regardless of differences in size, media or recirculation capability. If one or more units has recirculation, the facility receives 11 points (TF with recirculation).

9) **Polishing Pond** - to be considered a polishing pond, the pond must directly follow a settling unit that has sludge withdrawal. Example; Two lagoons in series do not receive points for a lagoon and a polishing pond even if the second lagoon is unaerated. A trickling filter followed by a secondary clarifier then a pond or lagoon will receive points for the polishing pond.

10) **Multiple Treatment Units** - Two treatment units may be scored if they exist at the WWTP, (see exceptions above), but the maximum scoring for secondary treatment is still 25 points. Example #1; Activated Sludge 20 points + Trickling Filter 11 points = 31 points, would receive 25 points for secondary treatment. Example #2; Trickling Filter with recirculation 11 points followed by an RBC 11 points = 22 points.

11) **Chemical Coagulation with Rapid mix, flocculation, & clarification** - To receive credit for this option, there must be separate rapid mix, flocculation and clarification units that are independent of primary or biological treatment systems. Chemical coagulation processes following biological treatment are ineligible.

12) **Rapid Sand Filter** - any filter with backwash capability is considered a rapid sand filter.

13) **Advanced Waste Treatment, Nitrification** - To get points for nitrification the WWTP must have a permit limit for Ammonia, TKN, or UOD. Monitoring alone does not receive the points. Credit for Nitrification is limited to one treatment process (activated sludge or other processes, not both).

14) **Denitrification points** - the WWTP must have a permit limit for Nitrates or Total Nitrogen. Denitrification is limited to one treatment process (activated sludge or other processes, not both).

15) **Nitrification/Denitrification** - No plant can receive points in both the nitrification and denitrification categories. The nitrification fraction is built into the denitrification points.

16) **Chemical Addition for Neutralization** - To receive credit, the chemical addition must be performed for metals removal or be necessary to meet effluent pH limits .

17) **Solids Handling Aerobic Digester** - To be considered an aerobic digester the unit must have a volume of at least 5% of the design flow of the plant and have aeration and decant capability.

18) **Sludge Lagoons, Sludge Holding Tanks** and/or **Wet hauling sludge** to another facility does not receive points.

19) **Solids Handling** - To receive points for composting or land application, it must be the primary stabilization/solids disposal process of the WWTP (more than 50 percent of the sludge produced by the WWTP must be composted or land applied) and have a valid Part 360 Permit. Example; pilot composting projects do not receive points.

20) **Spray Irrigation** of waste is considered the same as raw sewage or effluent pumping and receives 3 points. There is no double scoring for pumping. Example; Influent pumping and spray irrigation only receives 3 points not 6.

21) **Miscellaneous** - Nutrient addition, nitrogen or phosphorus, must have permanently installed equipment with the proper tanks and metering pumps to receive points.

22) **Out-of-Service Equipment or Equipment not being used** - If a piece of equipment is at the WWTP and not regularly used, but is operable if needed, it does receive points. If a piece of equipment has been abandoned, or disconnected from the flow scheme, or is inoperable, it does not receive points.

23) **Overland Treatment** does not receive points.

When each subtotal and the Flow Points are determined, they are all added together to reach the Total WWTP Score. This score, with the following table, establishes the minimum grade of Chief Operator and the Assistant/shift Operator needed at the WWTP.

Total Treatment Plant Score	30 and less	31 - 55	56 - 75	76 and greater
Grade of Chief Operator Required	1/1A	2/2A	3/3A	4/4A
Grade of Assistant/Shift Operator Required	1/1A	1/1A	2/2A	3/3A

If you have any questions please contact the Bureau of Water Compliance, at (518) 402-8177.

TOWN OF TUPPER LAKE WATER DISTRICT #3 UPGRADES
MEETING MINUTES: CONSTRUCTION PROGRESS MEETING #6

Date/Time: May 9, 2019, 1:00 p.m.

Location: Village Hall, 53 Park Street, Tupper Lake

Attendees: Jeff Proulx, North Country Contractors (NCC) (via telephone)
Mark Robillard, Village of Tupper Lake
Mike Dominie, Village of Tupper Lake (Municipal Electric)
John Quinn, Town of Tupper Lake
Paul O'Leary, Town of Tupper Lake
Mary Casagrain, Village of Tupper Lake
Paul Maroun, Village of Tupper Lake
Carrie Tuttle, Development Area of the North Country (DANC)
Steve Willard, C2AE
Kevin Feuka, C2AE

1. Administrative Status:
   a. Applications for Payment: Carrie will follow up on status of NBRC payment of payment application #5.
   b. M/WBE & EEO Reports: No issues to report.
   c. Shop Drawings/Submittals: None pending.
   d. RFIs: None pending.
   e. Permits: Only remaining items are DOH approval for putting the tank on-line and certificate of occupancy for the chlorination building.

2. Construction Status:

   Tamarac PS transformer and generator – Mike Dominie and Bill Dechene met on-site to confirm transformer location to avoid plowing interface. The generator will likely go in front of the building, but will be determined on-site tomorrow (Friday 5/8). Weekly exercise schedule likely in early morning hours to be confirmed with Paul O'Leary to be prepared to discuss with residents. Two control panels may be delivered tomorrow or Monday to W/WW shop.

   NYSDOH approval for on-line tank – Mark verified chlorine concentration leaving Tamarac is 0.25 mg/L. Next week, Jeff will drain down tank and turnover water main until he gets that residual. NCC to go with 1.67 gallons of chlorine this time. Chlorination method #1 can be done with tank full to maintain 10 mg/L. Requires 6.7 gallons of 12.5% concentration, and set for 24 hours. Jeff will review w/Statewide Aquastore and confirm final approach. The generator will be used to provide temporary power for existing mixer. The chlorination building injection point will be used for chlorine feed for testing. Plan is to finish sampling by end of next week, including VOC testing at second disinfection test.

   Electricians will be on-site next Tuesday for installations within chlorination building. Jeff wants to install disconnect and panels to be ready for Village work on Wednesday. Tank will be tested so we can have DOH approval early the following week. Then Tamarac underground work could start as

early as mid/end of next week (5/15 to 5/17). New electric service will be 400 amp vs. 200 amp currently. NCC will start late next week the final push to finish all remaining work, including base and Mitchell/Kildare punch list items, within 3 weeks by June 7. First system start up is scheduled for May 22 with Tamarac pump station start-up by May 31. Walkthrough and punch list tentatively scheduled for the end of that week. Ed Tripp needs to submit warranty paperwork and Aqualogics manuals for entire system. NCC's plan is to close out both base and WD3 project by June 14.

3. RPR Concerns: None expressed.

4. Town or Village Concerns: Golf course is planning to run/test irrigation system soon.

5. New Items: None.

6. General Questions/Comments: Start-up and final WD3 punch list meetings to be scheduled closer to dates noted above.

Subject: Tupper Lake Water & Wastewater Project Coordination Meeting Minutes

VILLAGE OF TUPPER LAKE

WATER/WASTEWATER PROJECT MEETING MINUTES

5/9/2019 – 2:00 p.m. Village of Tupper Lake Municipal Offices

Attendees: Mary Casagrain, Kevin Feuka, Paul Maroun, Mark Robillard, Carrie Tuttle

Project Status & Funding Report

1) Water Projects

a. Base Village Project Progress/Status

a.i. Status/Updates - NCC committed to complete all base project punch list items by June 7.

a.ii. Meters

a.ii.1. Meter selection process - Neptune has been awarded.

a.ii.2. Easements - 1400 (roughly 2/3) have been returned to date.

a.ii.3. Change order status for NCC - Change Order for residential meters only will be sent to NCC by 5/17. Current goal is to be able to start field work mid-June. Additional funding will be needed but an estimate can't be made until commercial property reconnaissance is done.

a.iii. Mitchell Lane Status - NCC committed to complete all Mitchell Lane/Kildare Road punch list items by June 7.

a.iv. Disinfection Byproducts - Mark will shut down Little Simon Pond plant.

b. T/Tupper Lake WD#3 Improvement Project Progress/Status

b.i. Status/Updates - NCC plans to be substantially complete by June 7.

b.ii. ESD – Targeting 9/19 for funds disbursal, awaiting ESD approval to proceed with disbursement request

b.iii. NBRC – a 2nd disbursement req. was submitted for $94,496.70 and has been processed.

2) Wastewater Improvement Project

a. Chlorination/Dechlorination - Process was operational by the May 1 deadline and for DEC's on-site inspection. Remaining work to install flow meters and backflow preventers on the chemical feed lines will be part of final completion within 30 days.

EFC noted it has contracted with Barton & Loguidice for final EFC close out. They should be contacting us shortly to schedule a visit.

b. WWTP Improvements/Collections System Work - Final plans and specs have been reviewed by EFC, but still in process by DEC and DOT. Kevin Feuka will continue to follow up with the intent to release for bidding in early June. C2AE has confirmed that Water Street interceptor sewer replacement will be sequenced first so street reconstruction can be completed this paving season.

c. Funding

c.i. Current funding breakdown follows:

Funding Source	Amount
NYWG	$1,605,394
NYSEFC 0% Loan	$4,816,184
Total ->	$6,421,578

3) I&I Study

a. Schedule/Status – base work that was required has been completed. Additional work is pending to fully utilize grant funds.

b. Funding –

EPG for Infiltration/Inflow Study required per modified SPDES permit	**$100,000**
Village Match	$20,000
TOTAL	**$120,000**

- The table below shows the breakdown of cost incurred to date to meet the project goal of $120,000.

VENDOR	DATE	INVOICE #	COST CODE	AMOUNT
DANC	07/19/20108	70915	DANC PM	$ 220.00
DANC	8/6/2018	71668	DANC PM	$ 110.00
DANC	11/8/2018	74010	DANC PM	$ 124.00
DANC	12/7/2018	74765	DANC PM	$ 275.00
DANC	1/8/2019	75608	DANC PM	$ 62.00
DANC	2/4/2019	76385	DANC PM	$ 1,066.90

DANC	3/5/2019	77159	DANC PM	$ 110.00
DANC	4/5/2019	77236	DANC PM	$ 2,552.20
DANC	5/13/2019	78783	DANC PM	$ 841.00
C2AE	6/26/2018	66393	Preliminary Phase 1	$ 5,400.00
C2AE	7/31/2018	66537	Preliminary Phase 1	$ 8,100.00
C2AE	8/30/2018	66701	Preliminary Phase 1	$ 2,700.00
C2AE	9/30/2018	66903	Preliminary Phase 1	$ 1,973.38
C2AE	10/31/2018	67077	Preliminary Phase 1	$ 12,575.71
C2AE	11/30/2018	67247	Preliminary Phase 1	$ 3,800.46
C2AE	12/31/2018	43465	Preliminary Phase 1	$ 1,080.00
C2AE	1/30/2019	67551	Preliminary Phase 1	$ 1,080.00
C2AE	2/28/2019	67711	Preliminary Phase 1	$ 45,962.64
C2AE	3/28/2019	67843	Preliminary Phase 1	$ 8,162.64
C2AE	4/15/2019	67899	Preliminary Phase 1	$ 3,240.00
V Tupper Lake	1/13/2019	N/A	Force Account	$ 8,941.72
			Total Project Costs to Date =	**$ 108,377.65**

An anticipated additional $4,638.90 is expected to complete grant close out tasks for DANC expenses. This leaves a total of $6,983.45 ($120,000 budget - $108,377.65 spent to date - $4,638.90 to be billed by DANC = $6,983.45) uncommitted from the capital project budget. The balance of $6,983.45 of uncommitted funds plus $8,941.72 of reimbursed force account labor will equal a total of $15,925.17 that will then be transferred/reimbursed to the sewer fund. This transferred amount could then be used for additional work. Carrie Tuttle will confirm with C2AE the actual amount of its final invoice so the balance of grant reimbursement of the $120,000 can be requested.

4) Other – no other items discussed.

5) Next Meeting – June 13, 2019 2:00 pm. at **Village of Tupper Lake, NY offices**.

VILLAGE OF TUPPER LAKE

WATER/WASTEWATER PROJECT MEETING MINUTES

6/13/2019 – 2:00 p.m. Village of Tupper Lake Municipal Offices

Attendees: Mary Casagrain, Kevin Feuka, John Quinn, Mark Robillard, Carrie Tuttle

Project Status & Funding Report

1) Water Projects

a. Base Village Project Progress/Status

a.i. Status/Updates – NCC is behind their prior committed date of June 7th to complete project punch list items. NCC has requested through the end of June to finish up final punch list items.

a.ii. Meters

a.ii.1. Meter selection process - Neptune has been awarded.

a.ii.2. Easements – About 300 easements are outstanding and the Village will be calling each of the residents to follow up. Letters will not be sent out at this time regarding water shutoffs.

a.ii.3. Change order status for NCC - Change Order for residential meters only was sent to NCC in mid-May but the signed CO has not been received back yet. Field work is now looking like it's going to start mid-July. Additional funding will be needed but an estimate can't be made until commercial property reconnaissance is done; there are no updates on the commercial properties at this time. Mark said that he would work on this to try and get this done.

a.iii. Disinfection Byproducts – Plant was not shut down as discussed last month. Mark is concerned that chlorine residuals will not be met if the Plant is turned off. Latest round of sampling results have not been returned yet.

b. T/Tupper Lake WD#3 Improvement Project Progress/Status

b.i. Status/Updates – NCC is targeting end of June for final completion of project tasks.

b.ii. ESD – Targeting 9/19 for funds disbursal, awaiting ESD approval to proceed with disbursement request.

b.iii. NBRC – awaiting project completion to submit 3rd and final disbursement request and close out grant.

2) Wastewater Improvement Project

a. Chlorination/Dechlorination – Contract is closed out and 100% payment has been issued. EFC noted it has contracted with Barton & Loguidice for final EFC close out. Kevin is working on documentation needed to schedule this site visit/final inspection.

b. WWTP Improvements/Collections System Work - DEC and EFC have issued their comments which are minor. DOT comments are still outstanding. Based on current bid climate and delays in receiving bid comments, C2AE is recommending postponing bidding until fall. A letter detailing recommendation will be forthcoming.

c. Funding

c.i. Current funding breakdown follows:

Funding Source	Amount
NYWG	$1,605,394
NYSEFC 0% Loan	$4,816,184
Total ->	$6,421,578

3) I&I Study

a. Schedule/Status – Costs have fully been incurred and paperwork is being prepared by T. Belden to submit to EFC for final disbursement request.

b. Funding –

EPG for Infiltration/Inflow Study required per modified SPDES permit	**$100,000**
Village Match	$20,000
TOTAL	**$120,000**

4) Other – no other updates were reported.

5) Next Meeting – July 11, 2019 2:00 pm. at **Village of Tupper Lake, NY offices**.

NYPA Hydro Power Curtailments

1 message

Narin Ly <info@meua.org>
To: Narin Ly <info@meua.org>

Tue, Jun 11, 2019 at 12:27 PM

Dear MEUA Members,

We all recently received a letter from Maribel Cruz-Brown at NYPA informing us that there were additional charges arising from "curtailments" at the Niagara generating station. These curtailments generally have to do with icing conditions at the facility, though under NYPA's current interpretation, they could extend to other circumstances as well.

We have been in discussions with NYPA regarding these curtailments. We do not agree that it is appropriate for NYPA to charge you for the replacement power required during these curtailments. These are new and unprecedented charges. In the past, NYPA has absorbed the cost of that replacement power. Indeed it is altogether right that they do so, because, among other things, they profit so handsomely in other hours of the month when they have extra water and excess generation. We do not believe it is right that our members have to pay for replacement power during certain hours, while NYPA keeps the profits of additional generation during the rest of the month. The 2018 curtailments cost our members over $1.07 Million.

At the time of the last contract extension in 2003, we agreed with NYPA that we as customers would bear the cost of replacement power required because of the historically low levels of the Great Lakes. That seemed fair to us. Now, however, the Lakes are at record high levels, as is the generation at Niagara. The curtailments we are now facing are not like those in the past. NYPA is now claiming that language in the new long-term contract extension allows it to charge us for these new curtailments. We do not agree that is what was intended.

As always, we will work in good faith to resolve this matter with NYPA. Any questions please contact me.

Thank you,

Tony Modafferi

2019 Hydropower Curtailments - Update

1 message

Jacobs, Darryl <Darryl.Jacobs@nypa.gov> Tue, Jun 4, 2019 at 4:27 PM
To: "mdominie12986@gmail.com" <mdominie12986@gmail.com>

NEW YORK STATE OF OPPORTUNITY | NY Power Authority

June 4, 2019

Mr. Mike Dominie

Village Of Tupper Lake

53 Park Street

Tupper Lake, NY 12986-0290

Dear Mr. Mike Dominie,

As previously noted, severe low temperatures earlier this year produced unanticipated ice conditions in the Niagara River which resulted in periods of adverse water conditions related to the New York Power Authority's (NYPA) Niagara Power Project generation. As a result, NYPA's generating output was temporarily reduced and our ability to meet our firm hydropower customers' needs was not sufficient in certain hours during the periods of January 26th 2019 to February 4th, February 24th to February 26thand from March 4th to March 6th. Since this generation reduction could not be anticipated, unplanned hydropower curtailments occurred and it was necessary pursuant to NYISO procedures for NYPA to make real-time purchases to offset the hourly shortfalls.

In addition, the Niagara River Control Center (NRCC) notified NYPA of a fourth period of adverse water conditions due to ice, resulting in intermittent unplanned hydropower curtailments from April 26th to April 28th. The NRCC is an independent entity that is responsible for ensuring regulatory compliance, determining the amount of water available for diversion to Ontario Power Generation and NYPA for power generation, and initiating the procedures necessary to mitigate ice impacts.

NYPA continuously monitors projections and forecasts of hydraulic and hydrologic conditions and future power generation at our Niagara Power Project. In recent months, these projections have indicated that there would be no shortage of firm hydropower to support NYPA's firm hydropower customers. While these long term projections are unchanged, hydrologic and/or hydraulic conditions can sometimes change abruptly due to short term factors outside of NYPA's control.

A full assessment has now been completed for the January, February, and March curtailments. The cost impact of these real-time energy purchases for the Village Of Tupper Lake was $4,576.45 for the month of January, $1,706.81 for the month of February, and $526.76 for the month of March for a total cost of $6,810.02.

Please be advised that these adjustments will be introduced on your NYPA invoices respectively for the May, June, and July 2019 billing periods to be invoiced in June, July, and August and labeled as an Intra-Month Curtailment.

Impacts related to the unplanned hydropower curtailments noted for April 26th to April 28th will be communicated upon further assessment and reconciliation with the NYISO.

Should you have any questions, please contact myself at (914) 390–8228 or your Account Executives, Darryl Jacobs at (914) 287-3207, Darryl.Jacobs@nypa.gov or Brandon Cole at (914) 287-3585, Brandon.Cole@nypa.gov.

Sincerely,

Maribel Cruz-Brown, CEM

Manager, Governmental, Municipal and Cooperative Accounts
